

RDSS District Review Tool Guide

This tool guide provides a high-level introduction to the various RDSS: Profile tools available to support district-level administrators (DLAs).

Quick Guide

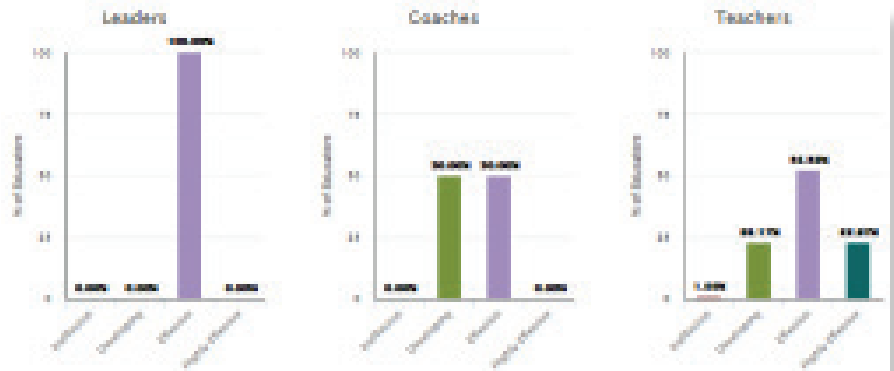

This guide has been specifically designed to support district-level administrators in “getting to know” the various tools that are available in RDSS: Profile to support the district review of REIL Scorecards.

RDSS District Review Tools

REIL Score Summary Report – Review Teacher Performance Distributions

The fastest way to find out how your district’s teachers performed in aggregate is the Performance Classification Report. This report quickly provides a district-wide snapshot of how many teachers fall into each of the four (REIL-TNG) or five (REIL) performance classification categories.

Where you can find it: This report can be accessed from the “Admin Reports” drop-down menu on the Global Navigation Bar.

REIL Score Components Inventory Report – Review Scorecard Measures

If you want to see the REIL Score, the performance classification, and a summary of the data used to calculate the REIL Score for every educator in the district, then the REIL Score Components Inventory Report is your one-stop shop.

Where you can find it: This report can be accessed from the “Admin Reports” drop-down menu on the Global Navigation Bar.

Scorecard ID	VAM-G Math	VAM-G Reading	VAM-G Science	VAM-G Writing	CGA-G Math	CGA-G Reading	CGA-G Science
1.1	35	35					
1.4							
1.1						27	27

If you’re in the market to drill down into a specific teacher’s individual student growth results, then the Teacher drill downs (and embedded Student-level drill downs) are your best resources.

Where you can find them: Teacher drill downs can be accessed directly from the REIL Score Components Inventory Report by clicking on an educator’s name or by searching for an educator using Educator Lookup.

Galileo Value-Added (VAM-G)				Composite Performance Score: 2.50	
+ Math		25 Students		Performance Score: 3 Weight: 0.50%	
Grade	Location	Student N	Weight		
Grade 02	Barba School	25	1.00%		
+ Science		25 Students		Performance Score: 2 Weight: 0.50%	

REIL Scorecard Inventory Report – Review Inventory of Scorecards Between Current and Prior Year

If you want to compare SY2015-16 REIL Score results to SY2014-15 REIL Score results on an educator-by-educator basis, then you can run the REIL Scorecard Inventory Report for teachers across the district. You can also filter the results down to a specific school for a more strategic review.

Where you can find it: This report can be accessed from the “Admin Reports” drop-down menu on the Global Navigation Bar.

REIL Score	Performance Classification	Prior Year Instrument	Prior Year REIL Score
298	Developing	COI	298
353	Effective 2	LdOI	298
388	Effective 2	LOI - SpEd	353
