

# Student Work Analysis Protocol

Subject: \_\_\_\_\_ Grade: \_\_\_\_\_ Date: \_\_\_\_\_

Formative or Performance Task: \_\_\_\_\_

Standard: \_\_\_\_\_

## A. *Expectations for Student Work/Performance*

Describe how you expect your students to perform on the assessment and identify the criteria for assessing the work.

## B. *Analyze and Sort Student Work Samples*

Review each assessment, and do a “quick sort” of students’ work into three categories. Write student names in the corresponding column.

| HIGH<br>(Objectives met) | EXPECTED<br>(Objectives partially met) | LOW<br>(Objectives not met) |
|--------------------------|--|-----------------------------|
|                          |  |                             |
| _____ % OF CLASS         | _____ % OF CLASS                       | _____ % OF CLASS            |

## Student Work Analysis Protocol

### **C. Identifying Student Strengths**

Choose a few samples from each level (low, expected, high) and identify the criteria that students demonstrated.

| HIGH | EXPECTED | LOW |
|------|----------|-----|
|      |          |     |

### **D. Identifying Student Needs**

Using the reviewed samples from each level, identify the criteria that students did not demonstrate. Identify student misconceptions.

| HIGH | EXPECTED | LOW |
|------|----------|-----|
|      |          |     |

# Student Work Analysis Protocol

## **E. Identifying Instructional Next Steps**

Based on the diagnosis of the student's performance:

What patterns or trends are noted for the whole class?

---

---

---

---

What instructional strategies will be beneficial for the whole class?

---

---

---

---

## **F. Differentiated Strategies**

Identify the content and instructional strategies that students at each level will benefit from.

| <b>HIGH</b><br>(Objectives met) | <b>EXPECTED</b><br>(Objectives partially met) | <b>LOW</b><br>(Objectives not met) |
|---------------------------------|---|------------------------------------|
|                                 |   |                                    |
