3BaysGSA PUTT - Golf Putting Analyzer

10,000 DATA POINTS CAPTURED PER PUTTING

PREFACE

Congratulations on purchasing the 3BaysGSA PUTT(MX-G103i). The unique combination of features and ease of use of your new Putting analysis device will allow you to record your Putting motions and parameters. Through GSA PUTT app, you are able to review your Putting information and playback your Putting arc on iPod, iPhone and iPad.

WARNING:

The signals used by this monitor may interfere with a pacemaker or other implanted devices.
Consult the manufacturer of the implant device and your physician before using this monitor.

SAFETY PRECAUTION

Please read all safety information prior to using the Golf Putting Analyzer. Failure to do so may result in unnecessary injury.

1. Do not leave the device exposed to a heat source or in a high temperature location, such as in the sun in an unattended vehicle. To prevent damage, please remove the device from the vehicle.
2. When storing the device for an extended time, store within the following temperature range: from -4°F to 122°F (from -20°C to 50°C).
3. Do not operate the device outside of the following temperature range: from 32°F to 122°F (from 0°C to 50°C).
4. Contact your local waste disposal department to dispose of the device/battery in accordance with applicable local laws and regulations.
5. Consult your physician before using this device when pregnant.
6. Operate the device only as intended. Do not use for any other purpose.
7. Do not place heavy objects on the device and keep the device away from humid, dusty and smoky environments.
8. Do not use water, chemicals or detergent to clean the device. Clean the surface with a soft cloth.
9. Do not use excessive force on the button.

10. To avoid damage, make sure you do not drop, smash, bend or crash the device.
11. Keep the device away from strong magnetic fields.
12. Do not disassemble or modify the device yourself.
13. Use only 3Bays authorized parts and accessories. Parts and accessories not approved for use with the device may damage the unit.
14. When you upload or download files using a USB cable, do not disconnect the USB cable during data transfer or turn the device off.
15. Data can be damaged because of physical impact, lightning and power failure.

Introduction

3BaysGSA PUTT is a patent pending innovation in golf Putting technology. It records your Putting motion and sends the information straight to your mobile phone through its unique GSA PUTT app, which compares each Putting against your own or your instructor's best Putting for greater accuracy.

The following table lists out the definition of some specific names using in this manual.

Item	Description
Consistency	It compares all aspects of each stroke just played with the best record and shows you how repeatable your putting stroke is. (in %)
Face angle	On GSA PUTT app, it shows both the putter's face angle at impact and face angles along the stroke, relative to address. + means Open and - means Closed. For right-handed golfers, Open is when the face is pointing out to the right and Closed is when the face is pointing out to the left. It is opposite for left-handed golfers.
Attack angle	It is the vertical (up-down) angle at which the putter head is moving at impact, relative to address. + means hitting up on the ball, while - means hitting down on the ball.
Tempo	It is the ratio of backswing time to downswing time. For example, 2.5:1 means your backswing is 2.5 times slower than forward swing.
Backswing time	It is the time taken of your backswing from address. It can be shown up to 2 decimals of a second.
Downswing time	It is the time taken of your forward swing to impact. It can be shown up to 2 decimals of a second. (follow through is not included)
Impact speed	It shows how fast the putter's head is travelling at impact. (in mph)
Swing path distance	The blue colour defines the backswing length and the yellow colour defines the distance of your follow through. (in cm)

Trouble Shooting

Q1: I can't pair my 3BaysGSA PUTT to my mobile.

For iOS users

A: If Bluetooth is disabled, please follow the procedures as below:

Steps

- 1) Search and download “ GSA PUTT ” from App Store.
- 2) When the 3BaysGSA PUTT device is in OFF mode, press & hold the power button for 4 seconds until Blue & Red LED are alternating.
- 3) Enable the Bluetooth function of your iOS devices, Setting > General > Bluetooth ON
- 4) Find out the corresponding serial number from the scan list. You can check the serial number at the back of your 3BaysGSA PUTT device
- 5) After choosing the correct serial number, input "8888" password.
- 6) After successful pairing, please go back to GSA PUTT app.
- 7) You can test the connection by clicking “ Connect Wizard “ at the top left corner of home screen.

If Bluetooth is enabled, please make sure:

- 1) Blue & Red LED are alternating by pressing and holding power button for 4 seconds from OFF mode before you start the pairing process.
- 2) You are not holding the pin of 3BaysGSA PUTT device during the pairing process.

For Android users

A: Please make sure:

- 1) Make sure Bluetooth is enabled.
- 2) Blue & Red LED are alternating by pressing and holding power button for 4 seconds from OFF mode before you start the pairing process.
- 3) You are not holding the pin of 3BaysGSA PRO device during the pairing process.

Q2: I can't search my 3BaysGSA PUTT device on the Bluetooth setting.

A: Please reboot your mobile and try the pairing procedures again.

Q3: After I Putting, the Blue LED of the device doesn't flash quickly and transmit data.

A: You may have some practice Putting movements at the setup position before you actually swing. Please keep your club still at the setup position for 2 seconds before Putting. (Blue LED is on and ready to Putting)

Q4: After I Putting, 3BaysGSA PUTT starts transmitting the data to the mobile but it stops without data transmission complete.

A: 3BaysGSA PUTT device may be at low battery level. Please charge the device for an hour (when Blue LED is on, it is fully charged) and then you can Putting again.

Q5: After I swing, 3BaysGSA PUTT does not flash quickly and transmit data.

A: 3BaysGSA PUTT device may be at low battery level, please charge the device for a hour.

Q6: Blue LED never goes on during setup position even I keep my club still.

A: The 3BaysGSA PUTT device may not be applied correctly on the end of your club Please align the arrow on 3BaysGSA PUTT device with the mark of the golf grip, which is pointing to the square club face.

Q7: I can't playback my Putting arc animation.

A: You can click the playback button at the right side. You can even playback in slow motion by clicking the 1/4 and 1/8 button.

Q8: How to set up the Putting arc color?

A: You can go to "Settings", and select "General ". then "Swing locus color" You can choose the color and transparency of your current Putting and best Putting.

Q9: I want to review the current Putting arc only.

A: You can click "Best Swing" button on the bottom menu bar and select "Hide Best Swing Arc"

Q10: How to share my Putting information to Facebook friends?

A: You can share your Putting information with your friends and coaches via Facebook and other social media sites on GSA PUTT app.

REGULATORY INFORMATION

Declaration of Conformity Trade Name: Perception Digital Limited

For customers in USA or Canada

This device complies with part 15 of FCC rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Notice:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio and television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna,
- Increase the separation between the equipment and the receiver,
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.
- Changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

For customers in Europe

- 1) This product conforms to the following European Directives: 89/ 336/ EEC (EMC Directive)
- 2) This product complies with EN55022/ A1: 2000 for use in the following areas: residential, commercial and light industrial.

DISPOSAL OF YOUR OLD PRODUCT

Your product is designed and manufactured with high quality materials and components, which can be recycled and reused.

When this crossed-out wheeled bin symbol is attached to a product, it means the product is covered by the European Directive 2002/96/EC.

To prevent any potential negative consequences for the environment and human health, please act according to your local rules regarding the disposal of this device.
