

Camisasca Automotive Manufacturing Inc. is proud to be a family owned and operated class-leader in providing premier automotive accessories for over 30 years. Located in the heart of Orange County California, our Lake Forest manufacturing plant has established a concrete presence as an exclusive supplier to over 34 North American and European Vehicle Manufacturers. Such prestigious names as Audi, BMW, Infiniti, Jaguar, Land Rover, Mazda, Nissan, Porsche, Mercedes-Benz, and Subaru all benefit from offering and selling our line of accessories to their valued consumers.

Specializing in stainless steel license plate frames, our line of quality-driven products has grown to include key chains, logo valve stem caps, stainless steel and lexan marque plates, trailer hitch covers, license plate picture frames, PlateSafe™, and many other custom specialty products. Designed and engineered to meet OEM quality standards, today we supply these same great products to catalogues, web merchants, small and large retailers, and corporate America for use in promotional and commercial gift programs. Renowned industry names, such as HRE Wheels, Porsche Club of America, and Cobalt Boats have all taken advantage of our experience and expertise to suit their own customers' wants and needs.

We stand out amongst the competition because our products come direct from our own state-of-the-art facility, where the highest quality materials are transformed by skilled craftsmen and advanced processes. Attention to detail pervades the value chain, as all Camisasca products must pass rigorous exterior testing to meet automotive industry standards. Componentry and flexible equipment capabilities ensure competitive pricing, yet allows us to offer unique levels of customization. Our safety stock management system for our standard line enables us to fulfill short-run specialty or promotional orders to meet your tightest deadlines. We embrace these aspects of our business because it's our livelihood and we wouldn't put our name on it otherwise.

With millions of accessories sold worldwide, it's no wonder we've received many glowing testimonials. From "the quality of your products and service is second to none," to "your company continuously provides fast delivery and exceptional quality," we consistently hear "it is always a pleasure doing business with you."

Nameplate Frames

- All frames are made from sturdy rust-proof stainless steel and guaranteed for a minimum of 4 years exterior use.
- Offered in three different finishes; Polished Mirror Bright, Brushed, and Powder Coated Flat Black.
- Available in two or four mounting hole frame styles that fit all 12" x 6" US and Canadian plates without blocking registration tags.
- Frames feature custom recessed short or long nameplate styles with up to four colors on white, silver, or black background. A clear protective doming is applied over the top of the nameplates to protect the graphics from UV fade and the elements.

Laser Etched Frames

- All frames are made from sturdy rust-proof stainless steel and guaranteed for a minimum of 4 years exterior use.
- Offered in three different finishes;
Polished Mirror Bright, Brushed, and Powder Coated Flat Black.
- Available in two or four mounting hole frame styles that fit all 12" x 6" US and Canadian plates without blocking registration tags.
- Two lines of detailed custom graphics permanently laser etched into the frames in black or silver as shown.
