M3 Lime Rock Park Edition

Trailer Hitch Plug: Product Spotlight

Custom Quail Rally Plates

Thank you Canadian Clients!

M3 Lime Rock Park Edition

With rumors that the legendary M3 is returning to an inline-6 power plant for the next generation M3, fans of the current V8 M3 will be happy to know that BMW is sending the E92 M3 away with a limited run of 200 Lime Rock Park Editions. Suitably, these special M3s were designed in conjunction with legendary racing driver and performance driving instructor Skip Barber. As Lime Rock Park serves to host Barber's driving school, who better to team up with in generating this track focused racer-for-the-road.

Some notable enhancements and upgrades to this M3 include:

- Custom Fire Orange paint
- Black Nappa Leather Interior
- Competition package
- Titanium muffler
- Carbon fiber aerodynamic upgrades
- Alcantara racing style steering wheel

Trailer Hitch Plug: Product Spotlight

As part of our monthly newsletter, we will be spotlighting one of our products to educate and inform our clients why Camisasca products are the highest quality automotive accessories on the market. This month, we've chosen our logo trailer hitch plugs.

We designed our custom trailer hitch plugs to look great for years and keep your corporate image pristine and visible. Additionally, our trailer hitch plugs are intelligently designed to drain water and keep debris out, all without use of a hitch pin. We also offer our hitch plugs with a special external-grade rubber lanyard so even the forgetful won't lose their beautiful hitch plug.

Like all of our products, we chose only tested exterior grades of materials for this product to meet automotive exterior applications. The plastic plug resin will resist fading and degradation of color even under long term UV exposure, and the recessed decorative logos are printed on aluminum sheet, not foil, using UV resistant inks. These graphic logos are then encapsulated under clear UV resistant polyurethane doming, which also supplies a fresh finished look. Each logo is held permanently into place with an adhesive that was chosen for its compatibility with the materials and its ability to withstand a variety of climates changes.

Whether you are an OEM distributor, CI promotional company, aftermarket retailer or specialty tuner, you can be assured Camisasca Automotive products are well engineered and manufactured to keep your customers happy and loyal for years to come.

Quail: A Motorsports Gathering Custom Rally Plates

Camisasca Automotive Manufacturing is proud to supply the 2012 Quail Rally with custom, finely crafted rally plaques for this year's rally. The Quail Rally is an invitation only event where some of the world's most prestigious classic cars cruise along Monterey's beautiful coastline and back roads. Last year's rally was attended by 30 lucky participants, and this year's will assuredly attract the most enthusiastic of auto collectors. The Quail Rally is a fantastic preview of just some of the spectacular cars which will flood the peninsula in the coming days; as many go on to participate in later Festoric events and shows.

However, even as the event is limited to only a few individuals, it does not lose touch of the fun and adventure classic rallies are all about. The Quail Rally's motto is "a good drive with good friends for a good cause". As such, the rally's entrance fee goes towards benefiting the 11-99 Foundation and other local charities.

Speaking on behalf of everyone here at Camisasca Automotive Mfg., we'd like to thank the Quail Lodge & Resort for the chance to supply these top quality rally plaques. Here's to another magnificent Gathering of Motorsports!

"A good drive, with good friends, for a good cause"

2012 Quail Rally Plate

Thank you Canadian Clients!

Camisasca Automotive Manufacturing would like to take a moment this month to thank our wonderful Canadian clients for choosing Camisasca to supply them with quality license plate frames, key chains, and other finely crafted accessories.

Our Canadian customers recognize the need for a product that will withstand the demanding climate they must face for exterior accessories. This is one of the reasons why they have chosen CAM to supply them with their **custom dealership branded license plate frames**. All frames are made from rust proof 304 Stainless Steel, and feature exterior tested graphic presentation processes. The presence of high humidity and temperatures in the summer, along with freezing weather and snow in the winter can wreak havoc on the less expensive inferior metal and plastic frames.

Again, thank you to all our Canadian clients for your continued business. We look forward to many more years of serving your needs!

O Canada!
