

Green Key aims to

Increase the use of environmentally friendly and sustainable methods of operation and technology in the establishments and thereby reduce the overall use of resources.

Raise awareness and create behavioural changes in guests, staff and suppliers of individual tourism establishments.

Increase the use of environmentally friendly and sustainable methods and raise awareness to create behavioural changes in the hospitality and tourism industry overall.

Green Key is supported by

SGS

LUCART
GROUP

Green Key is a non-government, non-profit, independent programme. It is recognised and supported by the World Tourism Organization, UNEP and the Global Sustainable Tourism Council.

Green Key is currently the largest global eco-label for accommodation and has a national organisation in charge of the administration in most participating countries.

Green Key has international agreements with

Did you know that...

° 97% of water on earth is in the ocean, only 3% of water on earth is drinkable.

° Flow restriction on showerheads and taps can reduce our water consumption by 50% without compromising comfort.

° Participating in towel and bed linen reuse programmes helps decrease water and chemical use considerably.

° Choosing Green Key accommodation reduces your environmental footprint without compromising comfort and quality.

Green Key is a programme of the Foundation for Environmental Education, also running Blue Flag, Eco-Schools, Young Reporters for the Environment and Learning about Forests.
