7th ANNUAL SEATTLE OTOLOGY & RHINOLOGY COURSE

March 9th - 11th, 2017

Seattle Science Foundation
550 17th Avenue
James Tower, Suite 600
Seattle, Washington 98122

JOINTLY SPONSORED BY SWEDISH MEDICAL CENTER & SEATTLE SCIENCE FOUNDATION IN COLLABORATION WITH THE UNIVERSITY OF WASHINGTON MEDICAL CENTER

CME CONTINUING MEDICAL EDUCATION

SWEDISH Extraordinary care. Extraordinary caring.

UNIVERSITY OF WASHINGTON
**COURSE DESCRIPTION**

The S.O.A.R. course is designed for practicing otolaryngologists to deepen their knowledge and improve their technical abilities in paranasal sinus and otological surgery. The agenda has been designed based on feedback from course assessments from the past 10 years. Long lecture segments have been replaced with added time in the anatomical laboratory supplemented by brief topical presentations related to the current dissections. Self-paced learning is emphasized. This 3-day intensive course will reinforce standard treatments and will introduce delegates to leading edge technologies, surgical techniques, and biomaterials. The goal of the course is to optimize the time each participant is taking away from their practice by building confidence to address more complicated pathology in the paranasal sinuses and temporal bone.

This hands-on training experience will provide unique opportunities for surgical technique application and will focus on caring for patients with ear and sinus disorders. Four different tracks will be offered to allow delegates to tailor their experience to their clinical needs. For the tracks including laboratory dissection, participants will have their own specimen and dissection station (including image guidance) for lab sessions.

**Tracks available:**

- **Track 1** 3-day Otology, Rhinology Lab & Lecture
  *All Day Thursday to Saturday*

- **Track 2** Otology Lab & Lecture
  *All Day Thursday to Friday*

- **Track 3** Rhinology Lab & Lecture
  *All Day Friday to Saturday*

- **Track 4** Didactic Lectures in Rhinology & Otology
  *All Day Friday*

During lunch on Friday, delegates will have the opportunity to review the latest technologies related to ear and sinus surgery in the ENT Exploratorium (no CME credits available for this 45 minute block.)

**NEEDS STATEMENT**

Substantial advancements have been made in the last decade with regards to the medical and surgical treatment of patients with ear and sinus disorders. However, with rapid changes in treatment, there exists a tremendous need for continued medical education regarding surgical approaches, techniques, and new technologies. Providers need to be updated and trained in these modalities in order to develop effective treatment plans for their patients, ultimately improving patient care and outcomes.

**INTENDED AUDIENCE**

This course is intended for practicing otolaryngologists, otologists, rhinologists, nurse practitioners and physicians’ assistants in the United States who would like to broaden their scope of practice in the medical and surgical treatment of disorders of the paranasal sinuses, eustachian tubes and temporal bone.

**OBJECTIVES**

- Apply a step-wise approach for cholesteatoma eradication and middle ear reconstruction
- Recognize the basic middle ear mechanics behind various middle ear reconstructions
- Recognize the key anatomic danger areas in labyrinthectomy
- Develop a standardized workup for conductive hearing loss patients
- Identify opportunities and limitations for imaging implantable devices
- Review current and future technology under development designed to treat hearing loss
- Outline current hearing preservation outcomes from cochlear implantations
- Outline a standardized approach to second stage reconstruction of the middle ear and chronic ear surgery
- Evaluate the dizzy patient through history, physical exam, and treatment plan development
- Discuss the many medical issues that are challenging to treat in chronic sinus disease
- Explore the most up-to-date advances and surgical techniques in Rhinology
- Identify the controversies in the medical management of patients with chronic sinusitis
- Discuss the optimal surgical approaches to treating chronic rhinosinusitis
- Recognize the danger areas within the sinus anatomy
- Appreciate the techniques used to minimize complications for frontal and sphenoid sinus surgery
- Recognize how to medically and surgically approach the most challenging rhinology cases presented by the experts

**ACKNOWLEDGEMENTS**

This symposium is supported in part by educational grants in accordance with ACCME Standards. At the time of this printing, a complete listing of financial supporters was not available. Appropriate acknowledgement will be given to all supporters at the time of the symposium.
CME INFORMATION

Accreditation with Commendation Statement

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Swedish Medical Center and Seattle Science Foundation. Swedish Medical Center is accredited by the ACCME to provide continuing medical education for physicians.

AMA PRA Category 1 Credits™
Swedish Medical Center designates this live activity for a maximum of 25 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

LOCATION

The Seattle Science Foundation is located at 550 17th Avenue, James Tower, Suite 600 in Seattle, Washington. Parking is available in the garage on 16th Avenue between Cherry and Jefferson at a maximum fee of $16.50. From I-5 (northbound and southbound), take the James Street exit. Travel east on James Street. James will become Cherry Street. Turn right (south) on 16th Avenue. Turn right into the main garage entrance.

FOR FURTHER INFORMATION

Phone: (206) 732-6500
Fax: (206) 732-6599

PLANNING COMMITTEE

Douglas D. Backous M.D., FACS
Greg Davis, M.D., M.P.H.
Vincent Chen, M.D.
Caye Boosalis, Manager, Swedish CME
Linda Sahlin, Director of Education, Seattle Science Foundation
Clara Greaney, Program Specialist, Seattle Science Foundation
OTOLOGY FACULTY

Douglas D. Backous, M.D., F.A.C.S., Course Director
Medical Director, Center for Hearing & Skull Base Surgery
Swedish Neuroscience Institute
Seattle, Washington

Guest Faculty

Matthew Carlson, M.D.
Assistant Professor of Neurosurgery
The Mayo Clinic
Rochester, Minnesota

Prof. Dr. med. Thomas Lenarz
Professor and Chairman Department of
Otorhinolaryngology
Medical University of Hannover
Hannover, Germany

Robert Vincent, M.D.
Causse Ear Clinic
Béziers, France

Local Faculty

Dick Hoistad, MD
Proliaance Surgeons
Seattle, Washington

Clifford Hume, MD, PhD
University of Washington
Seattle, Washington

Sean McMenomy, M.D.
Director of Neurotology & Skull Base Surgery
Swedish Neuroscience Institute
Seattle, Washington

Judith White M.D., Ph.D.
Medical Director, Balance Center
Swedish Neurosciences Institute
Seattle, Washington
RHINOLOGY FACULTY

Greg Davis, M.D., M.P.H., Course Director
Associate Professor of Otolaryngology
Director of Rhinology and Endoscopic Skull Base Surgery
University of Washington, Department of Otolaryngology-HNS
Seattle, Washington

Guest Faculty

Raymond Sacks, M.D.
Clinical Professor
University of Sidney
Sidney, Australia

Brent Senior, M.D., F.A.C.S, F.A.R.S
Professor of Otolaryngology/Neurosurgery
University of North Carolina
Chapel Hill, North Carolina

Sarah Wise, M.D.
Associate Professor of Otolaryngology
Emory Healthcare
Atlanta, Georgia

Local Faculty

AJ Amadi, M.D.
Clinical Associate Professor
Co-Director, Oculoplastics Fellowship
University of Washington
Seattle, Washington

Amy S. Anstead, M.D.
Otolaryngologist
Virginia Mason Medical Center
Seattle, Washington

Drew Ayars, M.D.
Assistant Professor
Center for Allergy & Immunology
University of Washington
Seattle, Washington

Ian Humphreys, D.O.
Assistant Professor
Rhinology & Endoscopic Skull Base Surgery
University of Washington
Seattle, Washington

Vincent Chan, M.D.
Swedish Medical Center
Seattle Medical Center

Jamie Litvack, M.D., M.S.
Harborview Medical Center
Seattle, Washington

Drew Ayars, M.D.
Assistant Professor
Center for Allergy & Immunology
University of Washington
Seattle, Washington

Scott Manning, M.D.
Division Chief
Otolaryngology, Vascular Anomalies, Research
Seattle Children’s Hospital
Seattle, Washington

Vincent Chan, M.D.
Swedish Medical Center
Seattle Medical Center

Kris Moe, M.D.
Professor, Otolaryngology
Head & Neck Surgery
University of Washington
Seattle, Washington

Michael Cruz, M.D.
Spokane Ear, Nose & Throat Clinic
Spokane, Washington

Al Pokorny, M.D.
Spokane Ear, Nose & Throat Clinic
Spokane, Washington

Brooke Thomas, M.D.

AGENDA

1:40 p.m.  Panel: Challenges in Everyday Rhinology
            Moderator: Greg Davis, M.D., M.P.H.

2:10 p.m.  Pecha Kucha Session 1
            2:10 p.m. - 2:20 p.m.
            Advances in Immune Modulation in Rhinology
            Drew Ayars, M.D.
            2:20 p.m. - 2:30 p.m.
            Tips For The Pediatric Nose
            Scott Manning, M.D.
            2:30 p.m. - 2:40 p.m.
            Optimizing Hemostasis In Endoscopic Sinus Surgery
            Jamie Litvack, M.D.
            2:40 p.m. - 2:50 p.m.
            CSF Rhinorrhea Evaluation And Management
            Amy Anstead, M.D.
            2:50 p.m. - 3 p.m.
            "Maximal" Medical Therapy For Chronic Rhinosinusitis
            Ian Humphreys, D.O.

3:00 p.m.  Break & Exhibits

3:20 p.m.  Key Note Address: Allergic Fungal Sinusitis
            Sarah Wise, M.D.

3:50 p.m.  Panel: Controversies in Rhinologic Surgery
            Moderator: Brent Senior, M.D.

4:30 p.m.  Key Note Address: Contemporary Management of CRS & Nasal Polyposis - What Is The Evidence?
            Raymond Sacks, M.D.

5:00 p.m.  Happy Hour Panel: Sinus Surgery Complications and How to Avoid Them
            Moderator: Kris Moe, M.D.

6 p.m.   Adjourn

Saturday, March 11th - Rhinology Course Begins

7:30 a.m.  Registration and Breakfast

8:00 a.m.  Welcome & Overview
            Greg Davis, M.D., M.P.H.

8:10 a.m.  Surgically Mastering the Maxillary & Ethmoid Sinuses
            Brent Senior, M.D.

8:35 a.m.  Surgically Mastering the Frontal & Sphenoid Sinuses
            Raymond Sacks, M.D.

9:00 a.m.  Surgically Mastering In-Office Procedures Including Balloon Sinus Dilation
            Sarah Wise, M.D.

9:15 a.m.  Broadcast from BioSkills Lab Prosections & Dissections:
            1. Prosection: Balloon Sinus Dilation
               Sarah Wise, M.D.
            2. Prosection: Maxillary & Ethmoid Sinuses
               Brent Senior, M.D.
            3. Prosection & Dissection: Frontal & Sphenoid Sinuses
               Raymond Sacks, M.D.

10:00 a.m.  Break, Exhibits & Transition to BioSkills Lab

10:30 a.m.  Hands-on BioSkills Lab Dissection 1:
            Maxillary, Ethmoid, Sphenoid and Frontal Sinus Surgery
            All Faculty

12:00 p.m.  Lunch & Exhibits

12:30 p.m.  Pecha Kucha Session 2
            12:30 p.m. - 12:40 p.m.
            Recurrent Acute Rhinosinusitis
            Roy Thomas, M.D.
            12:40 p.m. - 12:50 p.m.
            No Time To Waste: Experience Of A Busy Rhinology Practice
            Michael Cruz, M.D.

12:50 p.m.  Epiphora
            1 p.m. - 1:10 p.m.
            Epiphora
            AJ Amadi, M.D.

1:10 p.m. - 1:20 p.m.
            Topical Therapies For Chronic Rhinosinusitis
            Greg Davis, M.D., M.P.H.

1:20 p.m.  Break & Exhibits

1:30 p.m.  Prosections
            1. Prosection: Endoscopic Medial Maxillectomy & Inferior Turbinate Reduction
               Roy Thomas, M.D.
            2. Prosection: SPA Ligation,
               Pterygomaxillary Space & Vidian Foramina
               Ian Humphreys, D.O.
            3. Prosection: Orbital & Optic Nerve Decompression, Endoscopic DCR
               Greg Davis, M.D., M.P.H.

2:00 p.m.  Hands-on BioSkills Lab Dissection 2:
            Medial Maxillectomy, Inferior Turbinate Reduction, Sphenopalatine Artery Ligation, Vidian Neurectomy, Orbit Decompression, Endoscopic DCR
            All Faculty

3 p.m.   Break & Exhibits

3:30 p.m.  Prosections
            1. Prosection: Canthotomy/Cantholysis
               AJ Amadi, M.D.
            2. Prosection: Repair of Skull Base Defects
               Brent Senior, M.D.
            3. Prosection: Sella Turcica, Suprasellar Approach & Cavernous Sinus
               Sarah Wise, M.D.
            4. Prosection: Lothrop Procedure
               Raymond Sacks, M.D.

4 p.m.   Hands-on BioSkills Lab Dissection 3:
            Skull Base Defects, Nasoseptal Flap, Sella, Lothrop
            All Faculty

5:00 p.m.  Happy Hour with Panel Discussion: The N of 1 Sinus Case That Taught Me Something
            Moderator: Greg Davis, M.D., M.P.H.

5:45 p.m.  Course Wrap-up
            Greg Davis, M.D., M.P.H.

6:00 p.m.  Adjourn
REGISTRATION INFORMATION:
Pre-registration is required as space is limited. The discounted “Advance Registration” deadline is March 1, 2017. Registrations will only be processed and confirmed when accompanied by full payment.

If using the registration form, please mail or fax it to:
Seattle Science Foundation
550 17th Avenue, James Tower, Suite 600
Seattle, WA 98122
Fax: (206) 732-6599

Cancellation: To receive a refund, notice of cancellation must be received no later than March 1, 2017.

If you have special needs, please contact us at (206) 732-6500.
