**Chanda Plan Foundation Partners with Kaplan Morrell, LLC**

*Company will provide dedicated  
resource for workers' compensation issues*

DENVER – The Chanda Plan Foundation has created a partnership with Kaplan Morrell, LLC, a Denver and Greeley-based workers' compensation and disability law firm, to provide a dedicated Workers' Compensation and Social Security resource for its clients.

Kaplan Morrell, LLC will provide 24-hour access to Chanda Plan Foundation and Chanda Center for Health participants who may have questions or concerns regarding all workers' compensation issues. Kaplan Morrell will also give presentations or talks as needed to participants.

The Chanda Plan Foundation recently opened the Chanda Center for Health in Lakewood, Colo., and provides a single point of service for the health needs of people with long-term physical disabilities, a majority of whom live with a spinal cord injury. This holistic, person-centered approach will include a primary care physician, care coordination and behavioral health services, as well as massage, chiropractic services, acupuncture and adaptive yoga.

“We are very appreciative of Kaplan Morrell’s commitment to the Chanda Plan Foundation and Chanda Center for Health,” says Chanda Hinton Leichtle, Founder and Executive Director. “Understanding and processing workers’ compensation and social security issues is incredibly time consuming and complex, and we are thrilled that Kaplan Morrell will be on hand to help our participants wade through this process.”

Kaplan Morrell has a twenty-year history of helping injured and disabled workers obtain the rights and benefits they are due under the workers’ compensation, social security disability, and employment laws of Colorado and the United States. The firm’s mission is to assist injured workers and disabled individuals in dealing with the legal consequences of work injuries in workers’ compensation, social security, and employment law matters.

“The Chanda Foundation is dedicated to improving the quality of life for underserved individuals affected by spinal cord injury,” says Michael Kaplan, Kaplan Morrell, LLC. “We are committed to working together with Chanda and her team to inform and assist the community as they work to understand workers’ compensation issues.”

Chanda Hinton Leichtle and her sister, Crystal Hinton, established the nonprofit Chanda Plan Foundation in 2005 after Hinton Leichtle experienced significant health improvements through the use of integrative therapies for symptoms caused by a spinal cord injury. The Foundation’s mission is to provide access to integrative therapy, primary care, and other complementary services to improve health outcomes and reduce healthcare costs for persons with physical disabilities. It provides direct access to integrative therapies such as adaptive exercise, massage, chiropractic, acupuncture, and adaptive yoga to treat symptoms of spinal cord injuries, cerebral palsy, multiple sclerosis, spina bifida and brain injuries. The results of an integrated approach to treatment include reduced pain and the need for pain medication, lessened time spent at medical visits, and increased hours engaged in community or work.

### **About the Chanda Plan Foundation**

The Chanda Plan Foundation is a non-profit organization dedicated to providing access to integrative therapy, primary care, and other complementary services to improve health outcomes and reduce healthcare costs for persons with physical disabilities. The Foundation was established in 2005 by Chanda Hinton Leichtle and her sister, Crystal Hinton, and serves persons with symptoms of spinal cord injuries, cerebral palsy, multiple sclerosis, spina bifida, and brain injuries, and offers integrated therapies including adaptive exercise, adaptive yoga, massage, acupuncture, and

chiropractic. The Chanda Plan Foundation's person-focused Chanda Center for Health opened in April of 2017, and is the first of its kind, providing a single point of service for the health needs of persons with long-term physical disabilities.
