

ORDERING ABORTION PILLS ONLINE: Results of a September 2017 "Mystery Shopper Study" by Plan C and Gynuity Health Projects

The information below summarizes results of a mystery shopper study done by Plan C and Gynuity Health Projects in early 2017. At that time, all of the websites listed shipped real pills. Because these online pharmacy services are unregulated, there is no way to assess the authenticity or quality of the products they provide now. But, but we have no reason to suspect that the quality of pills they ship now would be different. Please visit plancpills.org/faq for more information about the legality of self-use of abortion pills.
