Registered Apprenticeship: The pathway to a 4 year degree

Apprenticeship is a combination of structured on-the-job training (OJT) with direct supervision by a craft-person mentor, and related classroom instruction, where workers learn the practical and theoretical aspects of a highly skilled occupation, while earning college credit and a living-wage salary.

Apprentices who complete their program, earn approximately $300,000 more over the span of their career than non-apprenticeship participants.

- United States Department of Labor

  - And many more............

AAI Navigator Role:

- Basic screening for eligibility into apprenticeships.
- Help the individual understand how apprenticeships work.
- Identify if the individual has barriers to apprenticeship.
- Connect the individual to community resource based on their barriers to apprenticeship.
- Identify what apprenticeship programs are out there that work for the individual.
- Help the individual navigate through the various apprenticeship programs.
