

About

sQuishloc is a reusable, collapsible and convenient pouch for your on-the-go needs.

Easy to fill and clean, its lightweight design makes it an ideal solution for snacks and smoothies.

With convenient measurement markings and a reliable seal, it's the perfect storage pouch for liquids and creams for travel, or carrying to the gym. It's also handy to mix protein shakes for a post-workout boost

It's a space-saving miracle for batch-cooking and storing as it's freezer and dishwasher safe. An easy way for families to organize their week: pack litterless lunches for children or grab-and-go portions of snacks and meals.

Just fill, fold and seal.

The sQuishloc story:

If you are always on the go and have a bag full of essentials for the day – soups and smoothies for work, protein powder and shampoo for the gym – then we've got something in common.

When a batch of shampoo exploded in my favourite gym bag, I decided to take the matter into my own hands. sQuishloc started as my pursuit for a reliable and portable way to carry all of those squishy needs.

After multiple versions and tiny but crucial tweaks, I'm happy to say that I've developed a dynamic household product that can help make lives easier. While there are storage pouches in the market, you'd be hard pressed to find one that as durable, versatile, and intuitive as sQuishloc.

Launching on Kickstarter

sQuishloc will be available on Kickstarter on November 17th for 28 days- we will be updating this press release and our website with links to the Kickstarter campaign on the day of the launch.
