

GALACTIC PRIMER - ATOM'S ROAD SPECS

CS Battlestar (Expeditionary)

Atom's Road (BE 14)

"Don't Tread on Me"

ATOM CLASS SHIPS:

- **Atom's Road (BE 14)**
- Atom's Fist (BE 15)
- Atom's Will (BE 16)

The mission of the CS Atom's Road (BE14) is to project strategic space power to establish sectoral space superiority as needed for ConFree to control all local systems within a target sector. The CS Atom's Road will execute response options ranging from peacetime patrols to general war. Her four organic cruisers and other craft will be used to conduct strikes, insert and support an expeditionary force or other downside units, protect the battlestar and all ConFree shipping, or conduct planetary blockades.

The CS Atom's Road represents the united power and resolve of the citizens of the Confederation of Free Worlds.
