

## LET US HELP YOU INTEGRATE STEAM INTO YOUR CLASSROOM A WINDOW INTO CREATINGSTEAM

**Laurie Carey Consulting** would like to come in and deliver **UNLOCK THE BOX!** A two class period workshop for your students on the importance of **CYBERSECURITY** and exposure to the fastest growing career field in Information Technology.

The two class period workshop will immerse your students into the understanding of today's Cybersecurity risks through an informative workshop followed by a fun hands on activity that brings **critical thinking, synthesizing information,** and real world **problem solving** to life.

The “**Unlock The Box**” workshop was designed as a subset of our “**CreatingSTEAM In The Classroom**” curriculum, which is one of our 40 hour STEAM programs. This program is design to support high school student's in grades 9-12 the discovery of career opportunities and experience an immersive entrepreneurial project based learning program.

We have developed a number of programs that will bring your district into the leader role for STEAM education. Visit our website **Laurie Carey Consulting**, to learn more and take advantage of our **free consulting workshop** to help you plan your 2017-2018 year.

To find out more about this program or our other STEAM in the classroom programs call us at **631-468-7477** or email our team at **Training@lauriecarey.com**.
