

Connections Foundations(e)[™]

The Connections Foundations(e)[™] is an in-person professional development program dedicated to education sector professionals. This two-day program is designed for the educator audience, including teachers, administrators, and anyone working in the education sector with students. Upon completing this learning experience, Connections Foundations(e)[™] participants will have the knowledge, skills, and models to engage in more brain-friendly conversations that lead to positive outcomes and to create more brain-friendly learning environments and experiences.

Program Objectives:

1. Create a brain-based language for connecting
2. Adopt a brain-friendly mindset
3. Refine brain-friendly skills for learning
4. Improve confidence connecting with others
