Overview of Somfy control systems

RTS – the ideal, radio control solution

No wiring between the transmitter and the receiver or the motor: saves on costs. Easy and quick to set e.g. using a remote control. All awnings, roller shutters, blinds, the garage door, the entrance gate and lighting can be controlled remotely without any effort.

Wired solutions

The traditional way for electric and automatic control: a switch or control with a wired connection to the motor. Relay boxes can be used with 2 or more motorised solutions. These can be controlled both centrally and individually. Oximo WT and ilmo WT motors can be wired in parallel but individual control is not possible.

IB – the Somfy installation bus

Controlling motorised solutions individually and as a group using a Somfy bus line system? Ideal for use in large residences, office spaces and health care buildings. Controlling multiple roller shutters is possible – via the installation bus – from a group control point.

For advice on control specifications please contact our Customer Service Department, **telephone 0113 391 3030**.

Chronis Comfort RTS

Chronis Comfort RTS

Can be combined with RTS tubular motors and tubular motors connected to a receiver.

Operates the roller shutters up and down two times a day at set times. Also control via a light sensor during the day.

Light sensor
order separately

Technical data

Product benefits

- Automatic timer and light control.
- LCD display.
- Easy operation.
- Can be combined with remote control and/ or wireless switch.
- Integrated Cosmic-function (opening and closing using the sun rise and set times).
- No mains connection necessary.
- Power reserve when the battery power drops.
- Control times can be set per day, but also as weekly block programme.
- 2 up and 2 down controls are possible each day.
- Choice between controlling the motor to its limit or to a 'my' position.
- Automatic switch between summer/ winter time.
- Built-in demo function.

Main technical data:

Power voltage:	2x1, 5V battery, type AAA
Index protection:	IP 30
Operating temperature:	+5°C to +40°C
Transmission frequency:	433.42 MHz
Setting range of light measurement	10 to 50 klux

Chronis Comfort RTS

	Reference number
Chronis Comfort RTS	1 805 176

Excluding light sensor.

Light sensor

	Reference number
Length 1 m	9 709 685
Length 2 m	9 709 686
Length 4 m	9 709 687
Length 7 m	9 709 688

Typical system

Chronis Smart RTS

Chronis Smart RTS

Can be combined with RTS tubular motors and tubular motors connected to a receiver.

Operates the roller shutters up and down once a day at set times.

Technical data

Product benefits

- Automatic timer control.
- LCD display.
- Easy operation.
- Can be combined with remote control and/ or wireless switch.
- Integrated Cosmic-function (closing using the sun setting).
- No mains connection necessary.
- Power reserve when the battery power drops.
- Control times can be set per day, but also as a weekly block programme.
- Automatic switch between summer/ winter time.
- Built-in demo function.

Main technical data:

Power voltage:	2x1, 5V battery, type AAA
Index protection:	IP 30
Operating temperature:	+5°C to +40°C
Transmission frequency:	433.42 MHz

Chronis Smart RTS

	Reference number
Chronis Smart RTS	1 805 166

Typical system

Chronis Easy RTS

Chronis Easy RTS

Can be combined with RTS tubular motors and tubular motors connected to a receiver.

Operates the roller shutters up and down once a day at set times.

Technical data

Product benefits

- Automatic timer control.
- LCD display.
- Easy operation.
- Can be combined with remote control and/ or wireless switch.
- No mains connection necessary.
- Power reserve when the battery power drops.
- Can be set to 1 up time and 1 down time.
- Built-in demo function.

Main technical data:

Power voltage:	2x1, 5V battery, type AAA
Index protection:	IP 30
Operating temperature:	+5°C to +40°C
Transmission frequency:	433.42 MHz

Chronis Easy RTS

	Reference number
Chronis Easy RTS	1 805 150

Typical system

Centralis indoor receiver RTS

Centralis indoor receiver RTS

Can be combined with 1 standard tubular motor or multiple WT-motors.

Can be controlled with all RTS controls, except 'wireless' solar and wind sensors.

Remote control ordered separately

Technical data

Main technical data:

Power voltage:	220-240V ~ 50/ 60Hz
Index protection:	IP 30
Operating temperature:	-5°C to +60°C
Reception frequency:	433.42 MHz
Output time delay:	3 minutes
Dimensions of mounted version:	83 x 83 x 48 mm
Dimensions of built-in version:	81 x 81 x 45 mm (18 mm)

Product benefits

- Can be combined with remote control and/ or wireless switch.
- No wiring between receiver and control point.
- Manual push button control on the receiver.
- 2 intermediate positions can be programmed.

Typical system

Contact Somfy for the number of parallel-switched Somfy WT-motors that may be controlled with a Centralis RTS 2 Indoor receiver.

Centralis Indoor receiver RTS

	Reference number
Centralis Indoor receiver RTS	1 810 096

For mounting: use mounting box, ref. 9 154 122 (see page 46).

Universal Receiver RTS

Universal Receiver RTS

Can be combined with 1 standard tubular motor or multiple WT-motors.

Can be controlled with all RTS controls and with the Soliris RTS sensor, Eolis RTS sensor and Sunis WireFree RTS sensor.

Remote control order separately

Technical data

Product benefits

- Can be installed outdoors.
- Can be combined with remote control and/ or wireless switch.
- Manual push button control on the receiver.
- 2 intermediate positions can be programmed.

Main technical data:

Power voltage:	220–240V ~ 50 / 60 Hz
Index protection:	IP 44
Operating temperature:	-20°C to +50°C
Reception frequency:	433.42 MHz
Output time delay:	3 minutes

Typical system

Contact Somfy for the number of parallel-switched Somfy WT-motors that may be controlled with an RTS Universal receiver.

Universal Receiver RTS

Batteries sold as a pack of 10 - type CR2430	

Centralis Uno RTS

Centralis Uno RTS

Can be combined with 1 standard tubular motor.

Can be controlled with RTS controls.

Technical data

Product benefits

- Incorporates a switch on the face plate.
- No wiring between the receiver and any additional RTS controls.
- Can be combined with remote control and/ or wireless switch.
- 2 intermediate positions can be programmed.

Main technical data:

Power voltage:	220 – 240V ~ 50/ 60Hz
Index protection:	IP 40
Operating temperature:	+5°C to +40°C
Reception frequency:	433.42 Mhz
Output time delay:	3 minutes

Typical system

Contact Somfy for the number of parallel-switched Somfy WT-motors that may be controlled by a Centralis Uno RTS.

Platine RTS

Platine RTS

Technical data

Product benefits

- RTS receiver to be integrated in the roller shutter box.
- Can be combined with remote control and/ or wireless switch.

Typical system

RTS Facing plate receiver to be secured in the roller shutter box

Main technical data:

Power voltage:	220-240V ~ 50/ 60Hz
Index protection:	IP 44 (built-in)
Operating temperature:	-5°C to +70°C
Reception frequency:	433.42 Mhz
Output time delay:	3 minutes

Platine RTS

	Reference number
Platine RTS	1 810 314

Supplied as standard with HiPro motor plug and white 4-wire (WF) cable, 19 cm long and white 3-wire (WF) cable without plug, 1 m long for connection to the mains.

RTS controls

	Reference number

Battery	9 011 651

Batteries sold as a pack of 10 - type CR2430

Outdoor lighting receiver

Outside lighting receiver RTS

E.g. for controlling garden lighting or pond pump, etc.

Technical data

Product benefits

- Outdoor lighting etc. can be operated remotely with any Telis 4 RTS remote control.
- Can be installed outdoors.

Typical system

Main technical data:

Power voltage:	220-240V ~ 50/ 60Hz
Index protection:	IP 44
Operating temperature:	-20°C to +50°C
Maximum load:	500 Watt
Reception frequency:	433.42 Mhz

Outdoor lighting receiver RTS

	Reference number
Outdoor lighting receiver RTS	1 810 628

Indoor lighting receiver RTS

Indoor lighting receiver RTS

E.g. for controlling garden lighting or pond pump, etc.

Technical data

Product benefits

- Indoor lighting receiver RTS can be operated remotely with any RTS remote control.
- Must be installed indoors.

Typical system

Main technical data:

Power voltage:	220-240V ~ 50/ 60Hz
Index protection:	IP 30
Operating temperature:	-5°C to +60°C
Maximum load:	500 Watt
Reception frequency:	433.42 MHz
Dimensions of mounted version:	83 x 83 x 48 mm
Dimensions of built-in version:	81 x 81 x 45 mm (18 mm)

Indoor lighting receiver RTS

	Reference number
Indoor lighting receiver RTS	1 810 165

For mounting: use mounting box, ref. 9 154 122 (see page 46).

Lighting module RTS

Lighting module RTS

E.g. for controlling awning lights, garden lighting or pond pump, etc.

Technical data

Attention
This product will be replaced in 2009

Product benefits

- Can be operated remotely with any RTS remote control.
- Can be used outdoors.

Typical system

Main technical data:

Power voltage:	220-240V ~ 50/ 60Hz
Index protection:	IP 44
Operating temperature:	0°C to +45°C
Maximum load:	500 Watt
Reception frequency:	433.42 MHz

Lighting Modulis RTS

Lighting Modulis RTS

E.g. to control the garden lighting.

Technical data

Product benefits

- Lighting can be controlled with either an on/ off command or dimmed down to the preferred light level.
- Dimming can be achieved using the up or down button or with the scroll wheel of the Modulis transmitter.
- Compact size makes it easy to install.
- Interim setting (50% light strength) preprogrammed.

Main technical data:

Power voltage:	230V ~ 50Hz
Index protection:	IP 54
Operating temperature:	0°C to +45°C
Maximum load:	300 Watt
Reception frequency:	433.42 MHz
Max. number of RTS controls:	12
Dimensions:	52.7 x 40 x 24.7 mm

Typical system

Lighting Modulis RTS

Wireless wall switch.	
Battery	9 011 651
Batteries sold as a pack of 10 - type CR2430	

Thermosunis WireFree sensor RTS

Telis Soliris Zilver

Thermosunis WireFree sensor RTS

Automatically moves the end product up or down depending on the temperature or the amount of sunlight measured.

Technical data

Product benefits

- The strength of the light and room temperature are measured.
- The sun function can be switched on and off.
- The temperature function always works together with the sun function.
- If the sun threshold position is exceeded the end product is lowered to the sensor height or to the my-position.
- If the temperature function is also operational, both the interior temperature and the light must exceed the set threshold before the end product is lowered.
- Battery powered - no wiring required..
- Easy to programme with the RTS motor or the RTS receiver.
- Easy to set the sun and temperature threshold position.
- Built-in demo function.
- LED indication for the level of the sunlight and the temperature.

Main technical data:

Index protection:	IP 31
Operating temperature:	0°C to +60°C
Transmission frequency:	433.42 MHz
Power supply:	3V battery (type CR 2430)

Only for indoor use.

Batteries sold as a pack of 10 - type CR2430

Typical system

Sunis Indoor WireFree RTS

Telis Soliris Silver

Sunis Indoor WireFree RTS

Automatically controls the end product based on the amount of sunlight.

Product benefits

- The strength of the light is measured.
- Sun function can be switched off (e.g. in the winter).
- Battery powered – no wiring required.
- Can be placed either on the window or the windowsill using the suction cup supplied.
- If the sun threshold level is exceeded the end product lowers to the sensor height.
- Easy to programme with the RTS motor or the RTS receiver.
- Easy to set sun limits.
- Built-in demo function.
- LED indication for the level of sunlight.

Typical system

Technical data

Main technical data:

Index protection:	IP 31
Operating temperature:	-10°C to +60°C
Transmission frequency:	433.42 MHz
Power supply:	3V battery (type CR 2430)

Only for indoor use.

Black finish incl. wall button.	
Battery	9 011 651

Batteries sold as a pack of 10 – type CR2430

Sunis WireFree sensor RTS

Sunis WireFree sensor RTS

Automatically controls the end product based on the amount of sunlight.

Telis Soliris
RTS Silver

Product benefits

- Autonomous solar powered sun sensor.
- Sun function can be switched off (e.g. in the winter).
- No wiring required.
- Easy to programme.
- Easy to set the sun threshold on the back of the sensor.
- Built-in demo function.
- LED indication for the level of sunlight.

Technical data

Main technical data:

Index protection:	IP 44
Operating temperature:	-10°C to +60°C
Transmission frequency:	433.42 MHz
Setting range for sun limits:	5-55 kLux
Autonomy	24 hours
Dimensions:	Ø 110 mm

Sunis WireFree sensor RTS

	Reference number
Sunis WireFree sensor RTS	9 013 075

Typical system

Remote control for the autonomous sun sensor

	Reference number
Telis Soliris RTS Pure	1 810 634
White, including wall button.	
Telis Soliris RTS Silver	1 810 909
Silver, including wall button.	
Telis 4 Soliris RTS Silver	1 810 907
Silver. Incl. wall button. 4 Channels.	
Telis Soliris RTS Lounge	1 810 908
Black finish incl. wall button.	
Telis 4 Soliris RTS Lounge	1 810 906
Black design finish incl. wall button.	
Battery	9 011 651
Batteries sold as a pack of 10 - type CR2430	

Telis Lounge range

Telis Lounge

Technical data

Product benefits

- Wireless.
- Easy to programme.
- Impulse control (one press on the button).
- Black finish.
- Shock resistant.
- Attachment via a wall button.

Main technical data:

Power voltage:	3V battery, type CR 2430
Operating temperature:	0°C to +60°C
Index protection:	IP 30
Transmission frequency:	433.42 Mhz
Transmission range:	c. 20 metres through 2 walls.
Weight:	70 g

Typical system

Telis Lounge range

	Reference number
Telis 1 RTS Lounge	1 810 649
1 Channel. Supplied as standard with battery and wall button.	
Telis 4 RTS Lounge	1 810 651
4+1 Channels. Supplied as standard with battery and wall button.	
Telis Soliris RTS Lounge	1 810 908
Sun function can be switched on and off. Supplied as standard with battery and wall button.	
Telis 4 Soliris RTS Lounge	1 810 906
4-Channel transmitter with an extra channel for switching the sun function on and off. Supplied as standard with battery and wall button.	
Battery	9 011 651
Batteries sold as a pack of 10 - type CR2430	

Telis Silver range

Telis Silver

Technical data

Product benefits

- Wireless.
- Easy to programme.
- Impulse control (one press on the button).
- Metallic silver finish.
- Shock resistant.
- Attachment via a wall button.

Main technical data:

Power voltage:	3V battery, type CR 2430
Operating temperature:	0°C to +60°C
Index protection:	IP 30
Transmission frequency:	433.42 Mhz
Transmission range:	c. 20 metres through 2 walls.
Weight:	70 g

Typical system

Telis Silver RTS range

	Reference number
Telis 1 RTS Silver	1 810 637
1 Channel. Supplied as standard with battery and wall button.	
Telis 4 RTS Silver	1 810 638
4+1 Channels. Supplied as standard with battery and wall button.	
Telis Soliris RTS Silver	1 810 909
Sun function can be switched on and off. Supplied as standard with battery and wall button.	
Telis 4 Soliris RTS Silver	1 810 907
4-Channel transmitter with an extra channel for switching the sun function on and off. Supplied as standard with battery and wall button.	
Battery	9 011 651

Batteries sold as a pack of 10 - type CR2430

Telis Patio RTS

Telis Patio RTS

Technical data

Product benefits

- Wireless.
- Easy to programme.
- Impulse control (one press on the button).
- Finished in blue/ white with water and shock-resistant casing.
- Attachment via a wall button.

Main technical data:

Power voltage:	3V battery, type CR 2430
Operating temperature:	0°C to +60°C
Index protection:	IP 44 (splash waterproof)
Transmission frequency:	433.42 Mhz
Transmission range:	c. 20 metres through 2 walls.
Weight:	70 g

Typical system

Telis Patio RTS range

	Reference number
Telis 1 RTS Patio	1 810 642
1 Channel. Supplied as standard with battery and wall button.	
Telis 4 RTS Patio	1 810 644
4+1 Channels. Supplied as standard with battery and wall button.	
Telis Soliris RTS Patio	1 810 646
Especially for 'wireless' sun and wind device and sun and wind device with receiver. Supplied as standard with battery and wall button.	
Telis 4 Soliris RTS Patio	1 810 648
4 channel transmitters with an extra channel to switch off the sun function of the wireless wind-solar sensor.	
Battery	9 011 651
Batteries sold as a pack of 10 - type CR2430	

Telis Pure RTS

Telis Pure RTS

Can be used with RTS receiver (loose or in the tubular motor).

Technical data

Product benefits

- Operate remotely.
- Easy to programme.
- Impulse control (one press on the button).
- Attachment via a wall button.

Main technical data:

Power voltage:	3V battery, type CR 2430
Index protection:	IP 30
Operating temperature:	0°C to +60°C
Transmission frequency:	433.42 Mhz
Transmission range:	c. 20 metres through 2 walls.
Weight:	50 g

Typical system

Telis Pure RTS range

	Reference number
Telis 1 RTS Pure	1 810 630
1 Channel. Supplied as standard with battery and wall button.	
Telis 4 RTS Pure	1 810 631
4+1 Channels. Supplied as standard with battery and wall button.	
Telis Soliris RTS Pure	1 810 634
To be used to inhibit the light function of a RTS light sensor. Supplied as standard with battery and wall button.	
Battery	9 011 651
Batteries sold as a pack of 10 - type CR2430	

Telis Composio RTS

Telis Composio RTS

Telis Composio RTS Silver
Telis Composio RTS Lounge

Technical data

Product benefits

- Wireless.
- Easy to programme.
- Impulse control (one press on the button).
- Available in silver or black finishes.
- 20 Channels.
- Each channel can be allocated a name.
- Sun function can be switched on & off.

Main technical data:

Power voltage:	3 x AAA 1.5 V batteries
Operating temperature:	0°C to +60°C
Index protection:	IP 30
Transmission frequency:	433.42 Mhz
Transmission range:	c. 20 metres through 2 walls.
Weight:	150 g

Telis Composio RTS range

	Reference number
Telis Composio RTS Silver	1 810 659
Silver finish.	
Telis Composio RTS Lounge	1 810 660
Black finish.	

Typical system

Impresario Chronis RTS

Impresario Chronis RTS

Impresario Chronis RTS Silver

Impresario Chronis RTS Lounge

Technical data

Product benefits

- Wireless.
- Easy to programme.
- Impulse control (one press on the button).
- Available in silver and black finishes.
- Integrated timer.
- Up to 16 scenarios/ 6 days/ 3 weeks can be programmed.
- Choice of 7 languages.
- Scenarios can be called up manually or via the timer.
- Sun management.
- Name can be set per product:

Main technical data:

Power voltage:	3 x AAA 1.5 V batteries
Operating temperature:	0°C to +60°C
Index protection:	IP 30
Transmission frequency:	433.42 Mhz
Transmission range:	c. 20 metres through 2 walls.
Weight:	165 g

Impresario Chronis RTS range

Typical system

Keytis RTS

KeyGo 4 RTS

Reference number

KeyGo

1 841 064

- 4 channel transmitter.
- Sequential control.
- Broad metal ring to attach to a keyring.
- 3 coloured rubber buttons are supplied.
- High-end finish.

Keytis 2 RTS

Reference number

Keytis 2NS

1 841 026

- 2 channels.
- Frequency: 433.42 Mhz
- Supplied with 4 different coloured clips.

Centralis RTS

Centralis RTS

Technical data

Product benefits

- Wireless wall switch
- Easy to programme.
- Impulse control (one press on the button).

Main technical data:

Power voltage:	3V battery, type CR 2430
Index protection:	IP 30
Operating temperature:	-10°C to +40°C
Transmission frequency:	433.42 MHz
Transmission range:	c. 20 m. through 2 walls

Typical system

Centralis RTS

	Reference number
Centralis RTS	1 810 090

Batteries sold as a pack of 10 - type CR2430

Situo RTS

Situo RTS

Technical data

Product benefits

- Wireless wall switch
- Easy to programme.
- Impulse control (one press on the button).

Main technical data:

Power voltage:	3V battery, type CR 2430
Index protection:	IP 30
Operating temperature:	-10°C to +40°C
Transmission frequency:	433.42 MHz
Transmission range:	c. 20 m. in open spaces

Typical system

Situo RTS

	Reference number
Situo RTS	1 810 636
Battery	9 011 651

Batteries sold as a pack of 10 - type CR2430

Inis RT

Inis RT

Technical data

Product benefits

- Wireless wall switch
- Easy to programme.
- Impulse control (one press on the button).
- Sequential controls.

Main technical data:

Power voltage:	3V battery, type CR 2430
Index protection:	IP 30
Operating temperature:	-10°C to +40°C
Transmission frequency:	433.42 MHz
Transmission range:	c. 10 m. in open spaces

Typical system

Inis RT

	Reference number
Inis RTS	1 810 180
Battery	9 011 651

Batteries sold as a pack of 10 - type CR2430

Chronis Comfort Uno

Chronis Comfort Uno

Can be combined with 1 or more standard Somfy tubular motors (with relays) or multiple WT motors.

Operates the roller shutters up and down twice a day at set times. Also up and down control via a light sensor during the day.

Light sensor
order separately

Technical data

Product benefits

- Automatic time control (switched off as standard).
- LCD display.
- Easy operation.
- Switching times can be set per day, but also as a weekly block programme.
- 2 intermediate positions can be programmed (e.g. daylight opening).
- Integrated Cosmic-function (opening and closing using the sun rise and set times).
- No loss of data in the event of a power cut (10 day reserve memory).
- 2 up and 2 down controls are possible each day.
- Choice between controlling the motor to its limit point or to a 'my' position.
- Automatic switch between summer/ winter time.
- Built-in demo function.

Main technical data:

Power voltage:	220 - 240V ~ 50/ 60Hz
Index protection:	IP 40
Operating temperature:	-10°C to +40°C
Light level range:	10 to 50 klux
Output time delay:	3 minutes

Chronis Comfort Uno

	Reference number
Chronis Comfort Uno	1 805 169
Excluding light sensor.	
White mounting box	9 102 073
Grey mounting box	9 102 004

Typical system

Light sensor for timer

	Reference number
Length 1 m	9 709 685
Length 2 m	9 709 686
Length 4 m	9 709 687
Length 7 m	9 709 688

Chronis Smart Uno

Chronis Smart Uno

Can be combined with 1 or more (with relays) standard Somfy tubular motors or multiple WT motors.

Operates the roller shutters up and down once a day at preset times.

Technical data

Product benefits

- Automatic timer control.
- LCD display.
- Easy operation.
- Switching times can be set per day, but also as a weekly block programme.
- 2 intermediate positions can be programmed (e.g. daylight opening).
- Integrated Cosmic-function (closing using the sun setting).
- No loss of data in the event of a power cut (10 day reserve memor).
- Automatic switch between summer/ winter time.
- Built-in demo function.

Main technical data:

Power voltage:	220 - 240V ~ 50/ 60Hz
Index protection:	IP 40
Operating temperature:	-10°C to +40°C
Output time delay:	3 minutes

Chronis Smart Uno

	Reference number
Chronis Smart Uno	1 805 162
White mounting box	9 102 073
Grey mounting box	9 102 004

Typical system

Chronis Easy Uno

Chronis Easy Uno

Can be combined with 1 or more standard Somfy tubular motors (with relays) or multiple WT motors.

Operates the roller shutters up and down twice a day at set times. Also up and down control via a light sensor during the day.

Technical data

Product benefits

- Automatic timer control.
- LCD display.
- Easy operation.
- 1 up and 1 down time.
- 2 intermediate positions can be programmed (e.g. daylight opening).
- No loss of data in the event of a power cut (10 day reserve memory).
- Built-in demo function.

Main technical data:

Power voltage:	220 - 240V ~ 50/ 60Hz
Index protection:	IP 40
Operating temperature:	-10°C to +40°C
Output time delay:	3 minutes

Chronis Easy Uno

	Reference number
Chronis Easy Uno	1 805 148
White mounting box	9 102 073
Grey mounting box	9 102 004

Typical system

Mini relay box for 1 tubular motor - 230 V

Mini relay box

For connecting 1 standard tubular motor or multiple WT-motors.

Mounting box
order separately

Technical data

Main technical data:

Power voltage:	220-240V ~ 50/ 60Hz
Index protection:	IP 44 (built-in)
Operating temperature:	-10°C to +40°C
Maximum contact load:	2 A

Product benefits

- Suitable for group and individual operation.
- Fits in a standard flush box or a mounting box, reference number 9 154 122.
- Can be combined with the relay boxes RK2 and RK3.
- Down command is priority with group controls.

Mini relay box

	Reference number
Mini relay box- 230 V	1 810 068
Mounting box	9 154 122

Typical system

RK2 - 2 motor relay unit

Relay box RK2

For connection of 2 standard tubular motors.

Technical data

Product benefits

- Suitable for group and individual operation.
- Each motor has a separate fuse.
- Mounted in an impact resistant synthetic box.
- Up command is priority with group controls.

Main technical data:

Power voltage:	220-240V ~ 50/ 60Hz
Index protection:	IP 55
Operating temperature:	-10°C to +40°C
Maximum contact load:	2 A

Typical system

Relay box RK2

	Reference number
Relay box RK2 - 230 V	1 810 276

RK3 - 3 motor relay unit

Relay box RK3

For connection of 3 standard tubular motors.

Technical data

Product benefits

- Suitable for group and individual operation.
- Each motor has a separate fuse.
- Mounted in an impact resistant synthetic box.
- Up command is priority with group controls.

Main technical data:

Power voltage:	220 - 240 V
Index protection:	IP 55
Operating temperature:	-10°C to +40°C
Maximum contact load:	2 A

Typical system

Relay box RK3

	Reference number
Relay box RK3 - 230 V	1 810 280

RK1, Dual switch operation relay unit

RK1

Can be combined with 1 standard tubular motor.

Technical data

Product benefits

- Suitable for controlling 1 standard tubular motor with multiple switches.
- No limit to the number of switches that can be connected.
- Down command is priority.

Main technical data:

Power voltage:	220-240V ~ 50/ 60Hz
Index protection:	IP 55
Operating temperature:	-10°C to +40°C

Typical system

RK1 Relay unit

	Reference number
RK1	1 800 280
Surface mounted rotary	9 920 007
Surface mounted	9 990 075

Universal frame cover

Universal frame cover

Version with Chronis Smart Uno

With control

Universal covering frame

- Can be used in combination with the Centralis RTS transmitter special finish, with the Chronis Easy Uno, Chronis Smart Uno and Chronis Comfort Uno.

Typical system

Universal frame cover

	Reference number
Universal frame cover	9 011 295
Can be used in combination with the Centralis RTS transmitter special finish, with the Chronis Easy Uno, Chronis Smart Uno and Chronis Comfort Uno.	
Facing plate type Gira E2	9 008 300
alpine-white. For combination with the Centralis RTS transmitter special finish ref. 1 810 249.	
Facing plate type Gira E2	9 008 288
alpine-white. For combination with the Chronis Comfort Uno ref. 1 805 169.	
Facing plate type Gira E2	9 008 286
Alpine white For combination with the Chronis Smart Uno ref. 1 805 162 or Chronis Easy Uno ref. 1 805 148.	

Switches

Rotary switch

Reference number

Single pole rotary switch	9 920 007
Two-pole rotary switch	9 920 002

- Can be configured for momentary or fixed position operation.
- Colour: white. Dim.: 64 x 52 x 40 mm.

Mounting box

Reference number

Base plate	9 920 005
------------	-----------

- Special mounting box for the rotary switch.
- Dim.: 69 x 76.5 x 17 mm.

Flush mounted rotary switch

Reference number

Single pole rotary switch	9 920 003
Two-pole rotary switch	9 920 004

- Can be configured for momentary or fixed position operation..
- Colour: white.
- Dim.: 80 x 80 mm.

Inis Uno switch

Reference number

Inis Uno - momentary position	1 800 013
Inis Uno - fixed position	1 800 016

- Built-in. Inteo design.
- 1 x switching contact.
- Colour: alpine-white/ grey.
- Dim.: 79 x 80 x 17 mm.

Inteo surface mounting box

Reference number

White mounting box	9 102 073
Grey mounting box	9 102 004

- Dim.: 89 x 90 x 44 mm.

Inteo frame covers double & triple

Reference number

double Inteo frame cover	9 000 850
triple Inteo frame cover	9 000 871

- Available in Alpine-white.
- N.B. The use of Jung CD 500 covering plates is essential when using these frame cover.

Switches

Inis Keo surface mounted switch

Reference number

Inis Keo - momentary position	1 800 030
Inis Keo - fixed position	1 800 031

- 1 x switching contact.
- Colour: alpine-white/ grey.
- Dim.: 83 x 47 x 48 mm.

Paddle switch

Reference number

Push switch - momentary position	1 800 061
Push switch - fixed position	1 800 060

- 1 x switching contact.
- Colour: alpine-white
- Dim.: 86 x 78 mm.
- Suitable for mounting box 9 660 045.

Flush mounted Inis Keo switch

Reference number

Inis Keo - momentary position	1 800 018
Inis Keo - fixed position	1 800 019

- 1 x switching contact.
- Colour: alpine-white/ grey.
- Dim.: 80 x 80 x 15 mm.

Surface mounted rocker switch

Reference number

Rocker switch - momentary position	1 800 158
Rocker switch - fixed position	1 800 150

- Colour: alpine-white
- Dim.: 32 x 25 x 40 mm.
- Two-pole.

Mounting box

Reference number

Mounting box	9 660 045
---------------------	------------------

- For paddle switch reference number: 1 800 060, 1 800 061, 1 810 393 and 1 810 394.
- Colour: alpine-white
- Dim.: 95 x 87 x 41 mm.

Switches

Flush mounted rocker switch

Reference number

Rocker switch - momentary position	1 800 159
Rocker switch - fixed position	1 800 151

- For Rocker switch reference number: 1,800,156 and 1,800,148.
- Colour: alpine-white
- Dim.: 80 x 40 x 42 mm.
- Two-pole.

Surface mounted paddle switch

Reference number

Surface mounted paddle switch - momentary position	9 990 069
Surface mounted paddle switch - fixed position	9 990 067

- 1 x switching contact.
- Water resistant (Protection class IP 44).
- Colour: grey.
- Dim.: 70 x 70 x 45 mm.

Rocker switch Vimar

Reference number

Rocker switch - fixed position	1 800 163
---------------------------------------	------------------

- Built-in, colour: white.
- Dimensions:

Surface mounted key switch

Reference number

Key switch - momentary position	9 990 075
Key switch - fixed position	9 990 074

- Single-pole.
- Water resistant (Protection class IP 54).
- Robust aluminium casing.
- Includes 3 keys.
- Brand: Geba.
- Dim.: 73 x 73 x 65 mm.

Flush mounted key switch

Reference number

Key switch - momentary position	9 990 095
Key switch - fixed position	9 990 094

- 1 x switching contact.
- Water resistant (Protection class IP 54).
- Robust aluminium casing.
- Includes 3 keys.
- Brand: Geba.
- Dim.: 73 x 73 x 65 mm, front plate 100 x 125 mm.

Switches

Surface mounting rotary

Reference number

Rotary switch	9 920 002
----------------------	------------------

- Can be configured for momentary or fixed position operation.
- dual pole contact.
- Colour: white.
- Dim.: 64 x 52 x 40 mm.

Mounting box

Reference number

Mounting box	9 920 005
---------------------	------------------

- Special base plate for rotary switch.
- Dim.: 69 x 76,5 x 17 mm.

Inis Duo switch

Reference number

Inis Duo - momentary position	1 800 027
Inis Duo - fixed position	1 800 026

- 2 x single pole switching contacts.
- Colour: alpine-white/ grey.
- Dim.: 79 X 80 X 17 mm.

Inteo surface mounting box

Reference number

White mounting box	9 102 073
Grey mounting box	9 102 004

- Dim.: 89 x 90 x 44 mm.

Inteo frame cover double & triple

Reference number

Double Inteo frame cover	9 000 850
Triple Inteo frame cover	9 000 871

- Available in Alpine-white.
- N.B. The use of Jung CD 500 covering plates is essential when using these covering frames.

Flush mounted rotary switch

Reference number

Flush mounted rotary switch	9 920 004
------------------------------------	------------------

- Can be configured for momentary or fixed position operation.
- 2 x switching contact.
- Colour: white.
- Dim.: 80 x 80 mm.

Impulse switches with stop function

Centralis IB

Reference number

Centralis IB	1 810 138
---------------------	------------------

- Inteo design. Control switch for use with Somfy electronic and IB controls.
- Colour: alpine-white/ grey.
- Dim.: 80 x 80 x 17 mm.

Inteo surface mounting box

Reference number

White mounting box	9 102 073
Grey mounting box	9 102 004

- Dim.: 89 x 90 x 44 mm.

Inteo frame cover double & triple

Reference number

Double Inteo frame cover	9 000 850
Triple Inteo frame cover	9 000 871

- Available in Alpine-white.
- N.B. The use of Jung CD 500 covering plates is essential when using these covering frames (see under the Diverse - Deviating switch material Inteo tab).

Flush mounted paddle switch

Reference number

Paddle switch	1 810 394
----------------------	------------------

- Impulse control.
- Control switch for use with Somfy electronic controls.
- Colour: alpine-white
- Dim.: 86 x 78 mm.
- Suitable for mounting box reference 9 660 045.

Mounting box

Reference number

Mounting box	9 660 045
---------------------	------------------

- For paddle switch reference number: 1 810 394.
- Colour: alpine-white
- Dim.: 95 x 87 x 41 mm.

Switches

Flush mounted single paddle switch

Reference number

Single paddle switch **1 810 393**

- Single paddle operation.
- Colour: alpine-white
- Dim.: 86 x 78 mm.
- Suitable for use with mounting box reference 9 660 045.

Mounting box

Reference number

Mounting box **9 660 045**

- For single paddle switch reference number: 1 810 204.
- Colour: alpine-white
- Dim.: 95 x 87 x 41 mm.

Surface mounted one-way key switch

Reference number

One-way key switch **9 990 073**

- One-way key switch.
- Water resistant (Protection class IP 54).
- Robust aluminium casing.
- Includes 3 keys.

Flush mounted one-way key switch

Reference number

One-waykey switch **9 990 093**

- One-way key switch.
- Water resistant (Protection class IP 54).
- Robust aluminium casing.
- Includes 3 keys.

Jung single paddle switch

Reference number

Single paddle switch **9 990 070**

- Single-pole.

Waterproof Jung single paddle

Reference number

Single paddle switch **9 990 068**

- Waterproof.
- Single-pole.

Push button and keypad unit

Waterproof Geba
push button

Reference number

Waterproof push button

9 990 078

- Surface mounting.
- IP 65.

Keypad TCS CODY
LIGHT 1/ 2

Reference number

TCS cody light 1/ 2

9 990 064

- Comprises a control unit and a keypad.
- Easy controls, programming and installations.
- High level of security: the control unit is installed indoors; 2 different pin codes(4 or 5-digits) can be programmed, memory is retained in the event of a power cut.
- Voltage: 230V AC 50Hz.
- Output: switching contact, potential free, 8A 250V.
- Operating temperature: -20°C to +60°C.

Chronis Comfort IB

Chronis Comfort IB

Operates the roller shutters up and down twice a day at set times. Also up and down via a light sensor during the day.

Light sensor
order separately

Technical data

Product benefits

- Automatic time and light control.
- LCD display.
- Easy operation.
- Integrated Cosmic-function (opening and closing on the basis of the sun rising or setting).
- No loss of data in the event of a power cut (10 day reserve memory).
- 2 up and 2 down controls are possible each day.
- Automatic switch between summer/ winter time.
- Built-in demo function.

Main technical data:

Power voltage:	220 - 240V ~ 50/ 60Hz
Index protection:	IP 40
Operating temperature:	+5°C to +40°C

Chronis Comfort IB

	Reference number
Chronis Comfort IB	1 805 173
Excluding light sensor.	
White mounting box	9 102 073
Grey mounting box	9 102 004

Typical system

Light sensor

	Reference number
Length 1 m	9 709 685
Length 2 m	9 709 686
Length 4 m	9 709 687
Length 7 m	9 709 688

Centralis IB

Centralis IB

For use with Somfy IB bus system.

Technical data

Product benefits

- Impulse control (one press on the button).
- Suitable for group operation.
- Suitable for use with the Centralis Uno IB controls.

Main technical data:

Power voltage:	low voltage
Index protection:	IP 30
Operating temperature:	+5°C to +40°C

Typical system

Centralis IB

	Reference number
Centralis IB	1 810 138
White mounting box	9 102 073
Grey mounting box	9 102 904

Centralis Uno IB

Centralis Uno IB

For Somfy IB bus system. Can be combined with 1 standard tubular motor.

Technical data

Product benefits

- Can be used for individual or group control scenarios.
- Has an integrated switch for individual operation and sliding switch for switching on and off central commands (e.g. SUN).
- 2 intermediate positions may be programmed

Main technical data:

Power voltage:	220 - 240V ~ 50/ 60Hz
Index protection:	IP 40
Operating temperature:	+5°C to +40°C

Centralis Uno IB

	Reference number
Centralis Uno IB	1 810 209
Centralis Uno IB VB	1 810 019
For use with Venetian blinds.	
White mounting box	9 102 073
Grey mounting box	9 102 004

Typical system

RTS kits

Centralis RTS Indoor kit with Centralis RTS

Kit comprising 1 Centralis RTS Indoor receiver ref. 1 810 137 and 1 Centralis RTS transmitter ref. 1 810 090.

Indoor RTS receiver with RTS switch

Centralis RTS Indoor with Centralis RTS

RTS Universal receiver with Telis 1 RTS Pure

Kit comprising 1 Centralis RTS Universal receiver ref. 1 810 624 and 1 Telis 1 RTS Pure transmitter ref. 1 810 630.

RTS Universal receiver with RTS remote control

RTS Universal receiver with Telis 1 RTS Pure

Home Motion Living Space pack

Pack comprising 1 Telis 4 RTS Silver and 1 Chronis Comfort RTS.

Home Motion Living Space pack

Home Motion Home Control pack

Pack comprising 1 Telis Compositio RTS Silver and 1 Sunis WireFree RTS sensor.

Home Motion Home Control pack

Home Motion Home Scenario pack

Pack comprising 1 Impresario Chronis RTS Silver and 1 Sunis WireFree RTS sensor.

Home Motion Home Scenario pack
