CHAC PROVIDES COUNSELING SERVICES TO CHILDREN AND FAMILIES IN LOCAL SCHOOLS AND A LOW FEE, COMMUNITY-BASED CLINIC DESIGNED TO PROVIDE SERVICES TO POPULATIONS WHO ARE UNDERSERVED. SITUATED IN MOUNTAIN VIEW, WE TAKE A SYSTEMIC, INTEGRATIVE, CLIENT CENTERED APPROACH TO SERVING A HIGHLY CULTURALLY AND ECONOMICALLY DIVERSE COMMUNITY. ALL SUPERVISION FOR DOCTORAL TRAINEES IS PROVIDED BY LICENSED PSYCHOLOGISTS.

**TRAINING PROGRAM:**
Currently, CHAC is accepting doctoral practicum applications via email. Each year, we select practicum trainees to work alongside our Doctoral Interns and MFT Trainees and Associates in CHAC’s Training Program. Chosen for their competence, compassion, and integrity, these trainees and interns represent all ages and cultural backgrounds.

Doctoral trainees spend 2 days per week in a school-based setting (elementary or middle) working with students individually and teachers/parents/guardians collaterally. This includes providing individual and group services to children and their families, support for teachers in the classroom, and community engagement/outreach presentations to cultivate positive school and community environments. CHAC engages in collaborative school partnerships with the goal of fostering academic and social competency by providing culturally responsive, evidenced and trauma informed services for each school community. In addition, trainees can see child, adolescent and adult individuals, couples, and families in our outpatient clinic for medium to long-term psychotherapy. Therapeutic personality assessment opportunities are available when clinically appropriate. Group supervision and didactics are on Thursdays.

**TO APPLY**
EMAIL A COVER LETTER, RESUME AND 2 LETTERS OF RECOMMENDATION TO:

LISA MACIAS, PH.D.
