**EVERETT B. (E.B.) PANNKUK, IV P.E. PROMOTED TO PRINCIPAL  
AT ANDREW CONSULTING ENGINEERS**

WILMINGTON, NC -- Everett B. (E.B.) Pannkuk, IV, P.E., a Senior Structural Engineer with Andrew Consulting Engineers since 2007, was recently promoted to Principal within the firm. Pannkuk has been a member of the firm's management team since 2011 and has worked on some of the firm's most notable projects, including the General Electric Uranium Enrichment Lab; Wilmington Water Street Streetscaping, and the Wilmington Riverfront Assessment. Pannkuk is also a LEED Accredited Professional.

"E.B. is a critical part of the Andrew Consulting Engineers team and we are proud to announce his promotion to principal," said Neal Andrew, president of Andrew Consulting Engineers. "Much of our success is due to his efforts within the firm and within the community. We applaud his dedication and hard work."

Pannkuk is a 1997 graduate of the United States Military Academy at West Point with a Bachelor of Science Degree in Civil Engineering and a concentration in structures. He is a 2002 graduate of the University of Missouri at Rolla with a Masters of Science Degree with honors in Engineering Management. Pannkuk earned his Professional Engineers (P.E.) license in 2002.

Following graduation from West Point, Lieutenant Pannkuk joined the United States Army Corps of Engineers (USACE). During his tenure, he worked on a wide variety of projects around the world and was promoted twice to the final rank of Captain. Notable projects included a ballistic building range, demolitions projects, heavy drop rig facility, brigade barracks and operations complex, and Pope Airfield apron extension. In addition, Pannkuk has extensive experience with mold remediation, HVAC upgrades and fire damage repair. Pannkuk's responsibilities with USACE encompassed more than 35 major construction projects and a budget of \$900 million. He also served as a company commander of the headquarters and support company for the 46<sup>th</sup> Engineer Battalion in Fort Polk, LA and trained and prepared a 300-man unit for deployment to Iraq.

In 2005, Pannkuk resigned from the military and joined W.G. Yates & Sons Construction Company in Jacksonville, NC. Here, he acted as a project manager for three 20-floor concrete frame luxury condominiums. Pannkuk remained at W.G. Yates & Sons for three years until he joined Andrew Consulting Engineers in 2008 as a Senior Structural Engineer.

Established in February 2004, Andrew Consulting Engineers is a full-service structural engineering firm that provides structural, forensic, marine and forensic engineering services for

companies, organizations and state and local governments throughout the southeast. The work of ACE engineers ensures that the region's built environment has the structural integrity to stand the test of time. Andrew Consulting Engineers has worked on everything from the Wilmington Riverwalk and Carolina Beach State Park Marina to Cape Fear Community College's Union Station and GE's Global Laser Enrichment Selective Isotope Laser Excitation Test Lab.

Andrew Consulting Engineers is headquartered at 3811 Peachtree Avenue in Wilmington, NC. For additional information, go to [www.andrewengineers.com](http://www.andrewengineers.com).
