

CHERYL BARTON, RLA, FASLA, FAAR, LEED AP
Design Principal, Office of Cheryl Barton

Cheryl Barton, founding principal and creative director of the O|CB studio in San Francisco, is an internationally known leader in the shift toward resilient futures through landscape architecture and green urbanism. Ms. Barton's work integrates design innovation and systems thinking and she has been a collaborator and visionary on many large, multi-disciplinary design teams engaged in projects for both public and private clients—all of whom are interested in building community connectivity and deepening their relationship with the natural world.
