

PERSONAL COACHING

My life coaching program is a course in empowerment. You'll learn to harness the power of your identity, and tap into your potential. From the very first session you'll experience a sense of liberation, because my clients feel truly understood.

When invited into your life I'll get to witness first hand, the behaviors which are keeping you from moving your life forward. With a non-judgemental approach, before we plan and implement change, I'll guide you to your truth, and help you understand why and how negative behaviors develop.

We'll start with a thorough evaluation and reflection process, to establish how you got to where you are now. I'll then help you develop where it is you want to be in life, how you're going to get there, which way is best, and so on. Through a series of developing life missions and grander life aspirations, I'll help you set, and start the goals which will navigate you into fulfillment, and toward the destiny of your choice.

My program is admittedly a unique approach to life coaching. The model I have designed is fueled by the psychology of motivation, and utilizes principle marketing tools used to manage and grow corporations. Furthermore, I have also incorporated functional spiritual practises such as: mindfulness, detachment, and balance. Having assembled these three focusses to work in unison, I have successfully coached many individuals, couples and family/group units into fulfillment.

Working with you in person is the most effective way to coach, because I'm right by your side as you confront the burdens which restrict your potential. Together, we'll work on opening up your mind, invigorating your body, and connecting you to your sole purpose.

WHO DO I COACH?

My coaching model was designed to serve a wide range of demographics. However, I have assigned the following key demographics generally associated with, but not limited to, the issues I help my clients overcome.

UNDER 30'S

Planning your life can seem like an overwhelming experience, especially if you lack direction, and are feeling uncertain about your future. By strengthening your sense of self and developing your awareness, my coaching program will help you assemble your aspirations. You'll **build a mindful plan**, complete with the life missions, goals, and objectives to help you reach your potential.

OVER 30'S

When each day feels as if it's stuck on repeat, life gets underwhelming. If you're feeling unfulfilled, my program will help you break the routine, and confidently build the life you've always wanted, all the while maintaining your responsibilities. With a program designed to reignite your identity, you'll learn how to overcome any personal restrictions, and **develop a new lease on life**.

MEN

It can be difficult for men to seek out support, because we're not as open about how we feel. I have room in my program to **explore and overcome issues** concerning men, for these issues keep us from achieving fulfillment. With an unthreatening approach, you'll feel comfortable speaking about topics surrounding masculinity, and the pressures facing the modern man.

WOMEN

I grew up in a house of equality, and raised by powerful women. I'll empower your identity by helping you understand how certain behaviours develop, and how negative thought patterns emerge. If you're feeling hesitant, or unsure about your future, my coaching program will help you **gain the confidence** to take back control over your life.

PROFESSIONALS

Entrepreneurs, Professionals and Graduates alike. If you're hungry for success and need a boost in productivity, my coaching program will help you channel your potential toward the aspirations you desire. There'll be no room for wishful thinking, as you and I will work closely together to **focus your ambition** and make your dreams reality.

RELATIONSHIPS

Couples and family/group units who are struggling to communicate, and deal with recurring problems. My services will help you overcome the troubles caused by your differences. You'll **become more mindful**, and appreciative of each other when you recognize each others value. Also, you'll quickly start to realize how your personal struggles shape relationship dynamics.

FREE SPIRITS

Life is a learning experience, and it's a shame to limit *your* life to societal pressure and conformity. My work involves strengthening your vulnerabilities to withstand the negative influences of this world. No longer will you feel isolated, as my program works to **liberate your identity** and free you from negative perception. I'll make you realize that your individuality is the key to success.
