

THE STARGAZER'S BIBLE

Barry Uhl

The Stargazer's Bible, the sophomore album from Barry Uhl, is a fiercely autobiographical piece. Drawing on a series of departures -- love, religion, a marriage -- Uhl folds his experiences deeply and intentionally into eleven careful, engaging compositions.

A contrast to his previous release, *The Stargazer's Bible* sees the setting aside of fictional character development to yield to the scars beneath. Treading the line between pop and psych, oft-heavy themes of personal journey manage to shine from a surprisingly melodic place; a hazy, fuzzy requiem to lost commitments.

Written, recorded, mixed, mastered at home, *The Stargazer's Bible* is a true DIY achievement.

An artist who is far beyond his time, who was discovered long ago by critics, fans, and fellow musicians. Welcome to the now. Sadly, you will always be too late.

- Damien Jurado

Like some transcendental lost Beach Boys track from 1967, ("The Ornament") is all neon-lit, confusing, and gorgeous.

- Hope Silverman, DNNM / 80N7

[An] ever-original and exceptional Seattle musician...

- Timothy Robert Graham

... [a] wonderfully infectious Nilsson-ish vibe.

- Jack Hand

Released on July 07, 2015
