

## TRAINING FOR EMERGENCY RESPONDERS

A first responder is at their best when they know their loved ones are safe. This course aids the first responder in preparing their families to handle emergencies alone so the first responder can report for duty in a timely fashion and stay focused on the task at hand when emergencies strike.

### Course Content

#### Introduction to Disaster Preparedness for Emergency Responders

*Introduction to realistic family preparedness information for today's American family*

#### Preparedness Begins at Home

*The foundations of overall preparedness including home and car preparation*

#### Basic Reactions to Disasters

*Discussion of various disasters and reaction methods*

#### Evacuation

*Countless details to make family emergency evacuation safer*

#### Shelter-In-Place

*Covering the important information regarding a potentially lengthy shelter-in-place reaction*

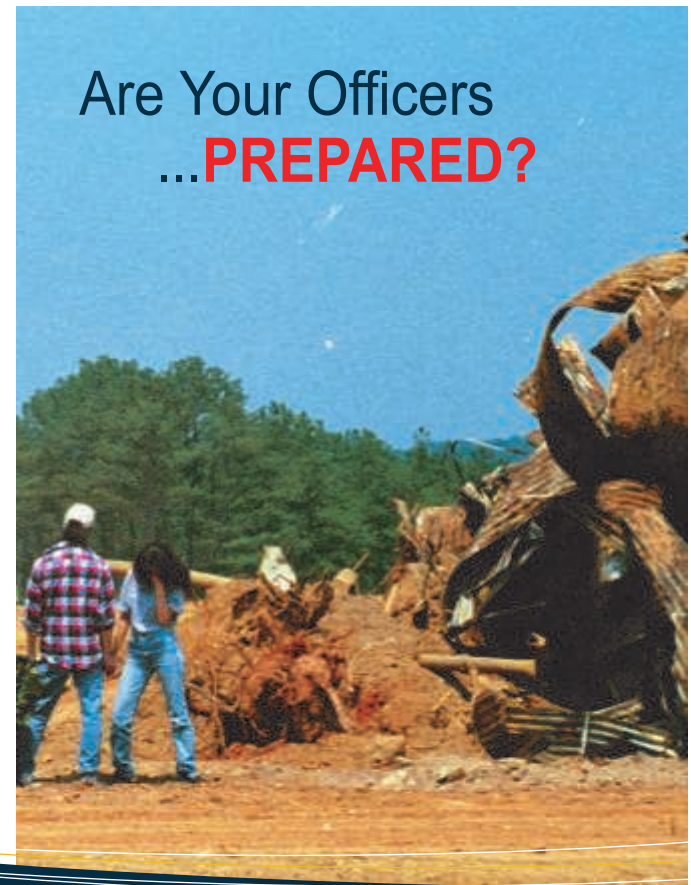

#### Improvised Gear

*Visually oriented lecture regarding creating needed gear out of available material*

#### Teaching Others

*How to train others in the community to better prepare themselves for disaster*

# Training that works.

EMPLOYEES THAT FEEL THAT THEIR FAMILIES ARE PREPARED TO HANDLE A CRISIS ARE MORE LIKELY TO SHOW UP FOR WORK IN AN EMERGENCY.

Employee "no show" rates can reach upwards of 50% in a local disaster. Helping them better prepare their families **before** the crisis gives you a more reliable workforce **during** the crisis.

"Disaster Preparedness for Emergency Response Personnel" is an 8-hour block of instruction focusing on greater terrorism and natural disaster readiness training for today's Emergency Responder professional. This course will go above and beyond the "72 hour kit" level of preparedness and maintain its attention to realistic preparedness by avoiding the "outdoor survivalist" type material.

## TRAINING SOLUTIONS

- COST EFFECTIVE
- COMPREHENSIVE
- ONSITE
- FOCUSED
- CRISIS MITIGATION

## reliable solutions for your training needs

### COMMON SENSE APPROACH

This course focuses on the application of common sense approaches to disasters of all types. This provides the maximum utility of information to all first responders who want to increase their own families' level of readiness and provide better information to the public at large.

**Recommended class sizes range from 10 to 30 trainees;** however, groups larger than 30 can be accommodated by request. Talk to us about large group discounts and family / community training for your public relations needs.

### COURSE GOALS

**Goal 1.** To provide better disaster preparedness instruction to Emergency Responder personnel so that in times of crisis, they are more apt to report for duty and stay on post, knowing their own family is better protected in their absence.

**Goal 2.** To provide better preparedness information to Emergency Responders for dissemination to civilians in their communities and to provide methods that will help when educating civilians.

### POST APPROVED

This course provides 8 POST hours of training for up to 30 of your force. The course is designed to allow attendance by trainee spouse at no charge as well if requested.

### TAKE HOME MATERIALS

Each attendee receives a copy of our book, Disaster Prep 101, which comes complete with a 2-DVD set with over 1,500 downloadable books and instruction manuals.

### COMPREHENSIVE

This training comes complete with all materials including pre and post tests, PowerPoint, and a POST approved Instructor for only \$175 per participant.
