The summer course *Chinese Politics and Society* is an intensive two-week course at Nordic Centre, Fudan University. Nordic Centre is a collaboration between Fudan University and 24 Nordic universities, and facilitates cooperation within education, research, and culture.

The course provides students with fundamental knowledge about China’s political landscape from the founding of the People's Republic in 1949 till today, and it gives students insight into China’s role both locally and globally.

The course is intended for BA-level students with little or no previous knowledge about China.

The course is taught in English by Chinese and Nordic teachers, and students who apply for the course must therefore have a good command of both written and spoken English.
