

THE AGE GAME

WHAT YOU NEED

Make a collage with 10 photos of the bride to be from when she was a baby until now. Try to use a mix of photos from different stages in her life, hobbies, interests and even some from those daggy teenage days (cringe)!

Don't worry too much about including photos with guests who will be at the hens - sometimes this can make it even funnier as they often are the ones to inaccurately guess when they should be getting it right!

Once you have finished the collage simply mark each photo with a number from 1 - 10. Then print one of the below pages for each guest.

THE AGE GAME

HOW WELL DO YOU THINK YOU KNOW THE BRIDE?

HOW IT WORKS

From the 10 photos shown - your job is to correctly guess the bride's age in each of the photos. Once you have made all of your guesses, place the age in the corresponding numbers below.

Once everyone has finished making their guesses it's time to tally up the results to see who is the winner!

If there is a tie, write how far off from the correct age you were next to your original guess. For example if the bride's real age was 5 and you guessed 7 then you would write 2. From this you then add up how far off you were from all incorrect guesses. The person with the lowest number is ultimately the winner!
