ENCOMPASS

Chameleon

A Chameleon is a type of lizard that can change its appearance at will.

Chameleon is also a new type of flexible monolith sign that can be specified like a bespoke sign but has all the cost and performance attributes of a sign system.

Chameleon monolith signs can incorporate a huge range of materials and finishes. Chameleon signs can be pared-down and simple or richly textured. Whichever combination of finishes you select, a Chameleon sign will be visually arresting.

Opens 25.01.2012
Closes 30.05.2012

OPENING HOURS
Daily 10am - 5.45pm
Last Admission at 5.15pm

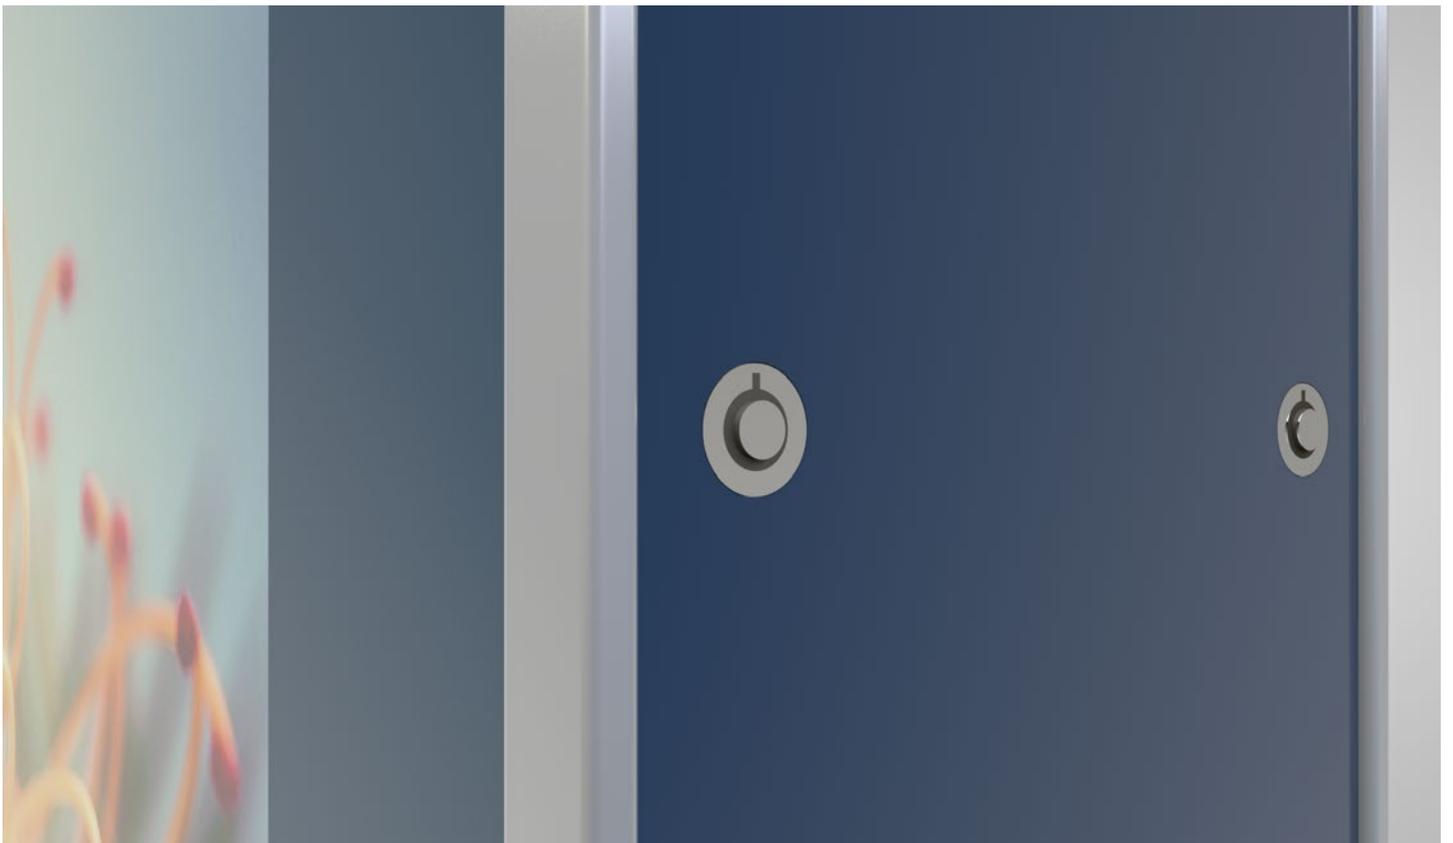

The concept behind Chameleon is stunningly simple; a pair of proprietary structural posts formed from aluminium extrusions that hold infill panels at the faces and sides. Chameleon is specifically designed to accommodate virtually ANY material that is available in sheet form. Typical materials might include: stainless steel, aluminium, laminate, steel, brass, bronze, glass, natural stone, granite, acrylic, timber or any combination of the above.

Chameleon is designed to accept the HB Modular Sign System, the benchmark modular sign system.

Chameleon is available with a hinged door option that uses discreet side mounted plunger locks for security.

Bottom
Plunger lock security system

Chameleon can be internally illuminated on one or both faces using economical and safe LED technologies.

LEDs are virtually maintenance free and last many times longer than conventional fluorescent lamps. LEDs have a running cost of around 20% of conventional lamps.

**Finishes &
Materials**

The range of possible finishes include: powder coating, stove enamelling, back painting glass or printing enamelled glass, vitreous enamelled steel, natural or coloured aluminum anodising and electroplating. Materials can be shot peened, sand blasted, or coated using the VeroMetal coating system in satin brass, satin bronze, satin copper, gunmetal, iron with a patina effect, satin nickel, stainless steel and satin tin.

Graphics can be, silk screen-printed, applied as laser-cut vinyl decals or digitally printed vinyl decals, digitally printed direct to media, mechanically engraved, chemically etched, or sand-blasted.

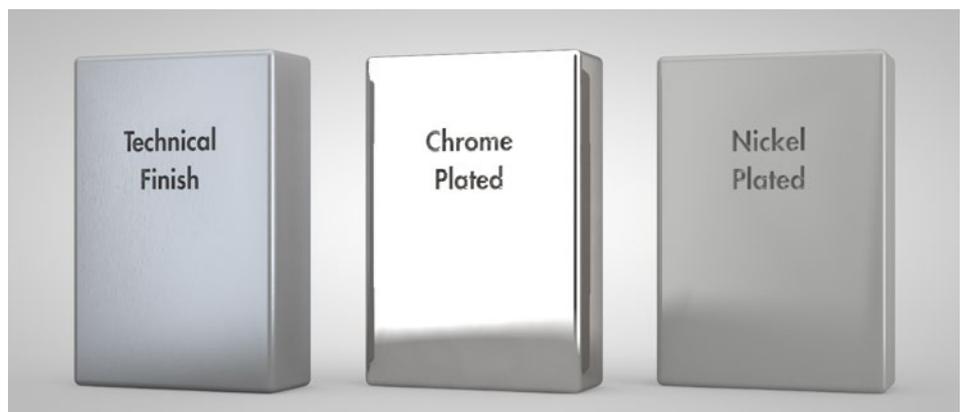

Finishes

Paint finished to RAL, BS and NCS references or colour matched to PMS (Pantone).

Chameleon can also utilise Vitreous enamelled steel panels.

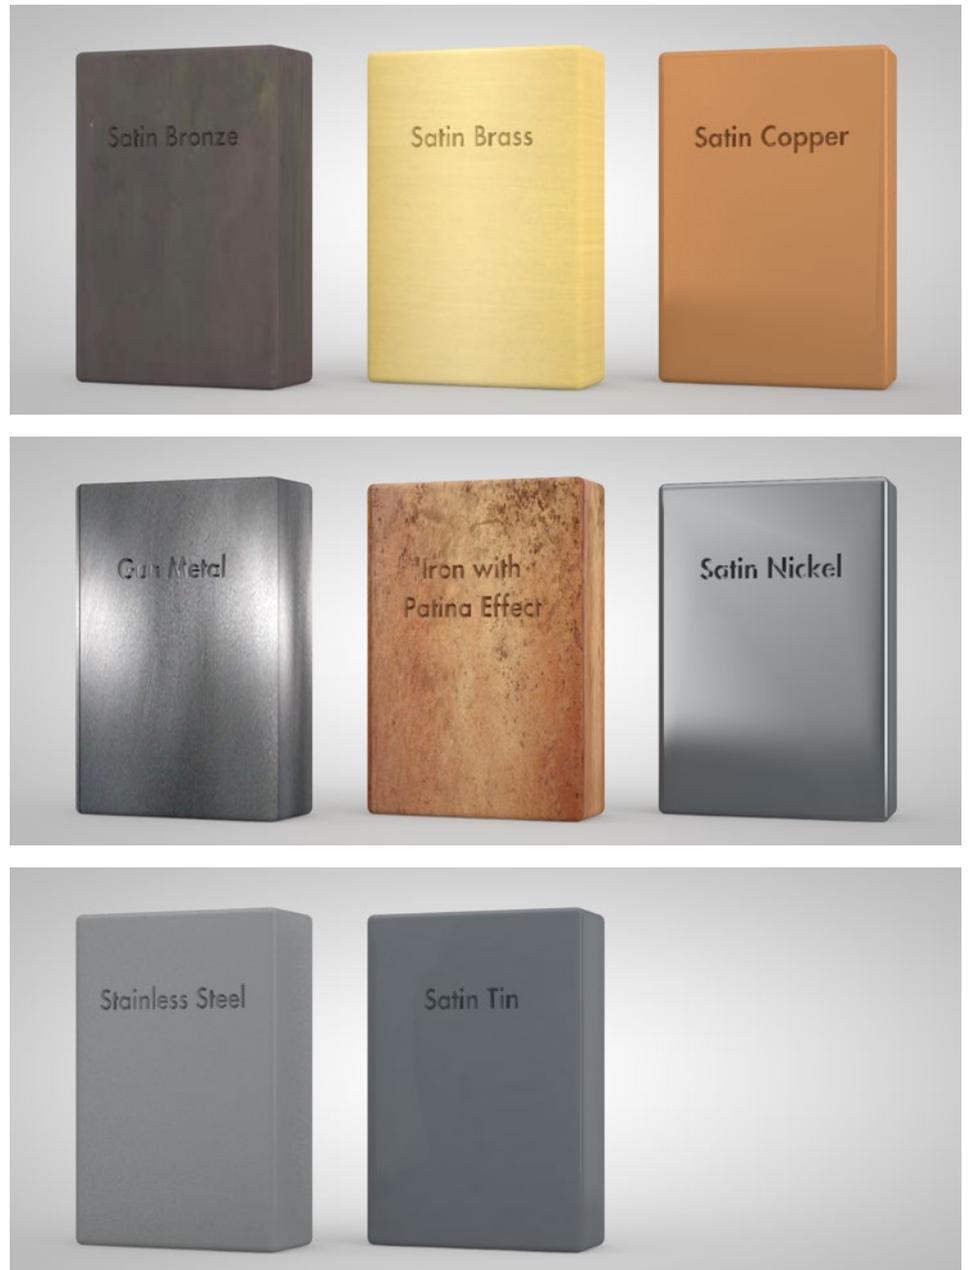

Metal Coatings, Electroplating & Aluminium Anodising

***VeroMetal
Coating System***

VeroMetal is a specialist coating of cold sprayable metal that can be applied to almost any surface.

VeroMetal is 95% metal and has all the features and properties of any hot-cast metal.
