

*Houston Roundtable*

*CSCMP Program 2017 / 18 Year*

The Houston Roundtable would like to welcome you to a new year of CSCMP activities, and introduce the program for the year. We look forward to seeing *all* of you at our events.

However, firstly the Roundtable hopes all of the CSCMP members and our friends who regularly attend our meetings came through the devastating Harvey without injury or personal loss. It was an incredible occurrence, and we wish all of you who suffered in any way the strength and fortitude to rebound from this storm. We look forward to hearing your experiences at the meeting.

Our program for the year is exciting, and I have listed the events below. These are all quality events where there are knowledgeable people who make speak or lead our tours, but also represent a major chance to network and discuss the issues in the forefront of our industry. We are also moving our lunch speakers to a new facility – Downtown Club - which is a great upgrade and makes our events even more enjoyable. The food is also just that bit nicer, so come and try the club, enjoy the food and learn from the speakers.

We really hope you will continue to come to our events and bring your friends! **See you next week Wednesday on the 13th!!!**

9/13/17	Texas A&M and Houston Professors will talk about the Future Trends in Supply Chain
10/11/17	Tour of Facility
11/8/17	Agent Dawn Mathis, of the DEA, will present the DEA and their interaction with Logistics
12/13/17	Innovation in Logistics will be presented by Stephen Spoljaric of Bechtel.
1/10/18	J J Plunket of the Houston Pilots will talk about our port and how the Pilots work to make the port the most efficient possible
