

Are You Ready for Amazon?

1 DAY PROGRAM

Unless you've been on a meditation retreat, you would've heard the news:

Amazon will launch physical retail operations in Australia.

This is probably the biggest event retail has seen in twenty years. It's up there with the take-over of Coles by Wesfarmers and the entry of foreign retailers generally. I know what you're thinking:

- I'm already at full stretch handling today's trading challenges.
- I feel swamped by all the opinions out there about Amazon.
- It's OK. My business will hardly be affected.
- I'm so sick of hearing about Amazon!

Just in case there's any doubt, read the next line carefully. Very carefully.

Almost every retailer will be affected. It's not a matter of 'if'. It's a question of how much and when.

Why should I attend?

What happens if I don't prepare for the age of Amazon?

From my experience, you'll fall into one of three groups in the way you respond. You'll be passive and do nothing. Or you'll react by diving into lots of activity but with a poor strategic focus. Or you'll create a considered strategy to protect your business from the threats and embrace the opportunities.

Unfortunately, most retailers fall into either the first or second group, accelerating the risk of:

- **FALLING** into a 'death spiral' of declining sales
- **WITNESSING** the most profitable parts of your range come under attack
- **MISSING** the opportunity to capitalise on Amazon's arrival

How ready are you prepared to be?

A little help is on its way.

Are you ready for Amazon? is a focused and strategic one-day workshop to help you prepare for the changes that will transform Australian retail.

About Jonathan Reeve

The workshop is facilitated by Jonathan Reeve, who specialises in helping Australian businesses master the art of e-commerce fulfilment.

With more than 15 years' experience working on the frontier of retail innovations, Jonathan draws on the latest thinking and weaves in practical learning from case studies to look at your customers and business models in new ways.

Jonathan also consults on retail strategy and e-commerce fulfilment, and recently published "Retail's Last Mile", a book that explores the disruption of traditional retail by online shopping.
