

Chart Embedding Instructions:

To create an iframe on the page you want to embed the chart, add an HTML element containing the iframe like so:

```
<div class="iframe-container">  
  <iframe src="http://framethedebate.azurewebsites.net/default.html?id=3&key=SOURCE"  
  </iframe>  
</div>
```

The src attribute is <http://framethedebate.azurewebsites.net/default.html>, with id and source parameters. The id parameter is used to identify the chart you want to embed. The possible values are:

Social Security chart = 3

Immigration chart = 4

Tax Policy chart = 5

The ***SOURCE*** parameter is an organization identifier which will be provided by PWBM.
