EMERGENCY PROCEDURES

In the event of an emergency, the following procedures should be followed:

1. Alarm boxes are located near the rear and front door exits on the first floor (including exit doors in the banquet room). Pulling the handle straight down activates the alarm system.
2. In the event of an actual fire emergency, notification will occur by alarm. When the alarm is activated, everyone except wardens will commence immediate evacuation – using the stairwells and not the elevators.
3. When the alarm is activated, all conference attendees and visitors shall evacuate. Employees and/or Security Officers will assist visitors in evacuation. When evacuating the building, all event attendees and visitors will use the closest exit to their respective conference room. Evacuation should be calm and at a safe, steady pace with spaced intervals to avoid falls or create bottlenecks. The last person leaving the room should close the doors. After evacuation has commenced, do not return to the facility under any circumstances until directed by the Fire Warden.
4. Upon exiting the building, all event attendee are to gather in the St. John’s Church of God in Christ parking lot, located directly behind the Downing-Gross Cultural Arts Center parking lot. If exiting through the front of the building, walk around the building to the parking lot. Do not leave the assembly areas unless directed by a Fire Warden. Assemble with your respective meeting coordinator for accountability.
5. Fire extinguishers are located in a stainless steel cabinet near the rear exit door (near the security desk) and on the wall near the women’s bathroom door, at the front, carpeted entrance of the Banquet Room. Two fire extinguishers are located in the kitchen in the Banquet Room. Only use the silver fire extinguisher in the kitchen for grease fires.
6. Upon discovery of a fire in the building, pull the alarm box nearest the fire immediately. The location of the pulled alarm box automatically registers on an indicator panel in the lobby and equipment room located on the first floor. A security contract company monitors these panels 24 hours a day, 7 days a week. This company will notify fire and police.
7. If you saw the fire and pulled the alarm, report to the security desk on the first floor and be prepared to assist the emergency responders and building maintenance/security personnel by giving them as much information as possible.
