

Energy Savings: 47%

Administered by: Energy Awareness CO2

Project - AC

A 24 hour energy baseline was established on one AC unit at the McGrath's Hill McDonalds restaurant. Energy Awareness CO2 along with Future Air installed COOLNOMIX® and measured energy use for a comparable 24 hour period.

McDonald's

Restaurant	Baseline	COOLNOMIX®	Energy Saved	
One AC Unit	70.86 kWh	37.28 kWh	33.58 kWh	47.4%

Conclusion

Electricity usage data indicated that when COOLNOMIX® was installed, the air conditioning was more efficient without having any effect on the restaurant's temperature. COOLNOMIX® saved 33.6 kWh over 24 hours which equals 47% savings.
