1. Download “Brilliance Smart” from Apple App Store or Google Play. Register account if first time user.

2. Connect to the transformer, hold the power button down for 5 seconds, the light will start to blink rapidly.

3. In the app press the plus (+) button in the top right to add a new device. Click “Electrical Outlet”.

4. Press “Confirm light blinks rapidly”. Enter your correct 2.4 GhZ Wi-Fi information, and wait for lamp to sync.

5. Once synced, rename lamp and press “Completed”.
