## INSTALLING THE FIXTURE

1. Separate the two-piece fixture by removing the two machine screws from the top of the body.
2. Install the wall anchors, if mounting in masonry, concrete, or sheetrock.
3. Use the provided cable connectors to connect the lead wires to the transformer main line.
4. Slide the cables into the conduit and mount the back plate onto the wall with the screws.
5. Screw the glare hood onto the fixture.
