

KERRYTOWN KINDLEFEST MARKET MAP

VENDOR PARKING ELIMINATED INSIDE MARKET

IMPORTANT TIPS FOR VENDORS

- **Set up begins at 3 p.m.**
- Electricity is available in the majority of the stalls. There is a place on the application to indicate if electricity is essential for your setup.
- Stalls are approximately 8' wide by 5' deep. 4', 6' and 8' tables are recommended.
- Due to the festive nature of this event, some stalls in the central location are near fire pits (smoke, ash). Take this into consideration when requesting your stall.
- Parking nearby or at stalls are extremely limited this year! Because of the large number of guests attending KindleFest, we've eliminated most all of the parking in the Farmers Market Lot. There is limited parking available for \$25.00 per spot; located on Detroit Street and up to 13 spots in the Market.
- It is strongly encouraged to park at the structure located at Ann & Ashley (less than two blocks from the market). The earlier you arrive, the easier it will be to park. The DDA website also has several parking lots identified in our area.
- Vendors are responsible for their own set up and tear-down, including providing tables, chairs, auxiliary lights, etc.
- Decorating your stall is highly encouraged!
- Check KindleFest's Facebook page for updates for vendors! www.facebook.com/kerrytownkindlefest

Due to increased popularity of the event, vendor applications will be evaluated to ensure exceptional quality and a diverse product mix.
