## CALIFORNIA PROPOSITION 65 OVERVIEW

**What is Proposition 65?**
Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm. This enables Californians to make informed decisions about their exposures to these chemicals.

Proposition 65 requires California to publish a list of chemicals known to cause cancer, birth defects or other reproductive harm. This list, which must be updated at least once a year, has grown to include approximately 900 chemicals since it was first published in 1987.

**What does the warning look like?**

⚠️ **WARNING:** Cancer and Reproductive Harm - www.P65warnings.ca.gov

**What does a warning mean?**
The product package associated with the warning could expose individuals to one or more of the chemicals on the list.

COMPREHENSIVE ARCHITECTURAL HARDWARE CONSULTING SERVICES

PAMEX INC. has experienced architectural hardware experts on staff to provide the architectural and design community with comprehensive consulting services surrounding architectural hardware, doors and frames specifications.

We understand the importance of meeting time-sensitive deadlines and strict budget requirements. When you use Pamex’s complimentary specification writing service, you will achieve both.

Pamex saves you time by operating your door hardware specifications on your behalf at no cost. We review the plans and help you spot and fix conflicts between the door schedule and floor plans.

Our goal is to help you by taking the stress and worry out of creating the hardware schedule during the design phase of your project by providing you with the following complimentary services:

- Developing detailed, architectural hardware specifications and schedules
- Meeting with your design professional and/or owner / architect to discuss project requirements and coordinate security and access control.
- Consulting on the applicable building codes to ensure fire, life-safety, and accessibility requirements are met
- Assisting with the development of keying schedules
- Provide product catalog cuts, electrical elevations, and riser diagrams
- Review of substitution requests, product applications, and product questions
- Review and comment on hardware submittals
- Conduct jobsite reviews, pre-installation meetings and post-installation inspections
- Conduct fire door inspections (FDAI-certified)

We believe that by offering you these complimentary, value-added services, along with our premium quality and cost-effective products, you’ll see for yourself how Pamex really does give you more.
