1.4 – Project’s Name: Out Site Project

Staff in charge report: Gnem Touch

I. Highlight:

- 2-3 Feb, 2012: Paid schooling fees and coordinated with casefile coordinator to re-register kids at Out Site Project with new forms.
- Talked to V. P., a kid who attended grade 7 at Chroy Chornngva High School, her elder sister, and her mother. She decided to drop out from both the Out Site Project and state school because she needs to support her family. Moreover, if she continues to study at the state school, two of her young sisters will have to drop out from state school.
- Negotiated with the Sakora Primary School Director on school fees. The Education Department decided to pay school fees to the school (\$1.5 per month for each kid) even though it is a state school because our previous discussions with the school principal on this topic did not help. Sometimes the teachers even punished our children and demanded money from them (\$27.5 per day).
- Talked to 5 kids at Aryksat Community. One of them (N. T.) decided to change from the English school American Okay to Asai Success Education, because she found it hard to catch up with lessons, the class divided into two level of students, and the teacher sometimes spoke the Khmer language.

II. Challenge/ Suggestion:

- Talked to C. L. (grade 9) and her mother. This month we gave her the money for her English fees directly at her request. We give her the cash on 5 March, 2012 and told her that we were going to take the invoice from her on 6 March, 2012 at 5:30 PM. She did not use the money for school. Instead, when I went to get the invoice from her house, I saw her mother’s pay card in her room. This family should graduate from our project because her mother is able to support them. She [pays/gets] rent for \$80 per month and she has worked as a trash buyer. I feel uncomfortable paying cash to rich families. In addition, there are three other children who are registered in our project. They are C. S. (Grade 5), C. S. (Grade 4), and C. R. (Grade 1).
- 5 March, 2012: Met with N. T. and N. T.’s mother. They live in a beautiful apartment. She said that it is her young brother’s apartment but some people nearby said that it is her own house. I and the other staff therefore feel uncomfortable paying them cash. On 5 March, 2012, one woman even asked me why we supported this family.
- V. P. dropped out from state school because she needs to support her family.
- N. T. changed from English School (American Okay School) to Asia Success Education Center.
- V. T. V. and V. N. failed their monthly exam because they are often absent from class. So the General Assistant of Education Director is going coach and monitor them next time.

III. Next Month Planning

- Going to pay school fees for kids at the Out Site Project.
- Going to coordinate with the case file coordinator to take photos of the kids at Out Site Project.
- Going to meet with the Sakora School Principal to make sure that our children are able to enroll in class.
- Going to meet with V. T., V. N., and their family.

English Class (Central Office)

Education Monthly Report

Highlight

- We decided to send C. C. to enroll with the Get Ready Girl Program after working with her family and Ms Srun Sokim, Social Worker.
- We finished verifying the students' names at English class in this month: There are sixty-one students. These students come from two different communities (Railway One and Phsar Touch) and three different schools (Ponhea Krek Primary School, Toul Sangke Primary School, and Beltei International Institute, Private Educational Institute).
- We plan to send all students who are at level 5 and high school students who are frequently absent to study advanced English at Blum House.
- There are two overseas volunteers who finished teaching English on February 24, 2012.

Challenges

- We have heard nothing about one student named S. T. L. who has been absent for over one month.
- There are four students at group B who are frequently absent and often come late. These students go to state school only and all of them live in different communities: C. S. N. lives in Family House, the second one lives near the center, the third one, R. S. N. lives near Blum House, and the last one, C. S. N. lives along the riverside.
- Most of the local volunteers work as volunteers for only a short period of time (only 3 months). This presents a big challenge for Education Department, as when it takes the volunteers a long time to get up to speed about the kids.
- Most of frequently absent children are involved with gambling around their home.
- Three returning students don't attend class regularly.
- It is hot at the day at the top of the stairs.

II. Grade Class (Central Office)

Highlight

- Finished verifying the the number of students in grade class at Alexandra Project this month. In the academic year 2011 – 2012, we had eighty-nine students. These children are split into three different levels. First, there are 16 children (8 girls and 8 boys) attending grade 3. Secondly, there are 26 children (11 girls & 15 boys) attending grade 2 and there are 31 children (17 girls and 14 boys) attending grade 1. And among these children, there are 12 children (6 girls and 6 boys) who aren't assigned to a grade yet because some don't attend state school, some work as trash collectors and others have just returned to our project. Additionally, four children dropped out (3 children are girls). **Note:** this number is updated every three months.
- On February 14, 2012, met with V. S., C. S. N. and C. S. N. to motivate them and deal with their problems in class and state school.
- Worked with house mother to follow up on the children who were absent from school (including V. S. L.) at their homes on February 21th, 2012.

Challenges

- One house mother at Central office has high blood pressure and she is often absent from work.
- We still get complaints from the neighbors at Central Office because our children interrupt their sleeping time as some of them work at night, and others just had a baby .
- There are three children who fell asleep during the day and another student who is frequently absent (C. R.). C. R. frequently has to collect wash.
- We have only seven children who have been able to catch up on their lessons and can read the Khmer alphabet. These children study at Family House.
