

Riverkids Foundation School Supporting Program Monthly Report

Report for Month: April, 2013

Staff in charge: Vet Sengly

Main School Supporting Program Highlights:

- March monthly tuition fees were paid for the students who study at Toul Sangke, Ponhea Krek, and Little Bird programs.
- Three students from Westline School have received the top five numbers in their class. They have received from numbers one to five.
- A student who studies at Beltei has received a high top number for both the GE and ESL program. She has received number two in GE and range one and grades A in ESL class.
- One student returned to Vietnam. She is enrolled in the Smartypants Program.
- We have selected four students who have serious crisis in their lives that need additional support. The social work team will provide counseling and follow-up with them.
- We have coordinated with the Ponhea Krek Primary School director and teacher to register two more children into our school support program.
- We have worked with family and social team to collect documentation of four children at Khbal Koh (Little Bird Program), so they can be registered in our program next month.
- Worked with Toul Sanke teacher and school director to coordinate a child to attend class. The student does not attend school when she has afternoon studies.
- Supported Savda (Social Worker) to follow up with students who are involved with ABCD.
- Updated the student statistics with the Casefile coordinator
- Met and paid for extra tuition fees to teachers at Toul Svannaram and Wat Phnom secondary and high school.
- Provided absent student information to the school supporting program and to the social work team.
- Monitored a student who has been sent to study at the Empowering Youth Organization.
- Monitored the students who are attending state and private schools.
- Had a meeting with Beltei. The primary, secondary, and high school students are to ensure their study follows the working process of the team leader. Textbooks and uniforms are to be purchased for university students.

Riverkids Foundation

School Supporting Program Monthly Report

Main School Supporting Program Challenges

- Most students are absent on the days before and after Khmer New Year.
- Three of the students who study in grades two and three at Ponhea Krek Primary School still cannot write the alphabet and they go out while the teacher is teaching.
- Seven students who study at Ponhea Krek Primary School are frequently absent from school. They don't provide information to the teacher regarding their absenteeism.
- Two students stopped attending class. One of them studies at grade seven and lives near the central office.
- One student is often absent or truant from class. He also has problems with the class teacher.
- Ponhea Krek Primary School Director requests Riverkids donate money to build a playground at the school.
- Two students in the Smartypants Program still want to stop studying in Beltei School because their families want them to find jobs. Two of the students want to move from grade eight to grade nine.
- A student (L.S.K.) is often absent from class. She studies at Beltei School.
- A student who attends school at Westline was absent for a week. He went to Bontay Meanchey Province.
- Three students still don't attend class. They are studying at Empowering Youth Cambodia. These children live at K6.

Next month's plan for Schools Supporting:

- Pay the May monthly tuition fees for students studying at Toul Sangke, Ponhea Krek, and Little Bird.
- Monitor students who are attending all of the state and private schools.
- Provide transportation support and weekly tuition fees to secondary and high school students.
- Pay monthly food to support families at the Little Bird Program.
- Work with our social team to support students who have problems at state schools.
- Meet with the secondary and high school teachers and director.
- Work with the Casefiles team and social workers, to recruit five more children to enroll in school supporting programs.
- Work with the Social team, Empowering Youth Cambodia, and K6 community network to follow-up with absent students.
- Work with the Social, Casefiles, and Education teams to undertake assessments of seven new families for ABCD.
- Work with the youth leader of Toul Sovaneram Secondary School to follow-up with students who have problems at school.

Riverkids Foundation School Supporting Program Monthly Report
