Next Month (March 2015)

Please briefly describe activities planned for next month.

Pay attention to babies with health problems mentioned above and report progress.

- Evaluation about weight and height of babies.
- Home visits for baby and family assessment
- Encourage parents to pay more attention and prioritize hygiene to babies.
- Take babies to a doctor or medical practitioners to get proper vaccination.
- Continuously encourage parents to provide more nutrition to babies.
- Provide multivitamins to mothers and babies.
- Encourage parents take babies to hospitals when they are sick.
- Support transportation and food if babies stay in hospitals.
