- Computer Literacy

.....A FREE SERVICE.....

Our Mission.....

Family literacy centers assist families and individuals to effectively learn how to read, write and communicate in English. Tutors provide one-on-one assistance that is tailored to meet the needs of the individual learner.

Tutoring In:

- Reading
- Math
- Computer Literacy

FAMILY LITERACY CENTER

Our Process.....

The Center will match the learner with a caring volunteer who employs a methodology tailored to fit individual learning needs. The emphasis is on early intervention with help in basic and intermediate reading, as well as writing and computing. In addition to conventional print materials available at the center, we utilize up to date technology that includes internet, DVD's, and interactive CD's for both training and distance learning. As a result of staff, parents and trained tutors, working together, students will raise their reading level by approximately one-half grade each month. Students thus experience increased self-esteem as well as the ability to be more productive at school, on the job, and in their personal and community lives.

Who Can Participate.....

Services are provided free of charge to both children and adult learners. It is never too late to improve your reading and math skills. All it takes is two hours a week to make a life-long change!

Steps to Get Involved.....

If you would like to take advantage of the services offered by the Family Literacy Center, or would like additional information, please contact us at the following:
