TEMPO SCHOOL PRESS RELEASE

Date: May 4, 2022

Subject: TEMPO School’s Divya Prasad Awarded Schulich Leader Scholarship- $80,000

The greater TEMPO School community is proud to announce that Divya Prasad, one of our Grade 12 students, has been awarded the prestigious Schulich Leader Scholarship. Schulich Leader Scholarships are Canada’s most coveted undergraduate Science, Technology, Engineering and Mathematics (STEM) scholarships and are valued at $80,000 for students studying the sciences. These are awarded to entrepreneurial-minded high school graduates enrolling in a STEM program at a partner university. Divya has been accepted at the University of Alberta for September 2022. In her own words, Divya shared that, “I am going to pursue computer science at the University of Alberta. In the future, I want to solve real world issues by focusing on innovating, cutting-edge products in the space industry, whether it is designing rockets, building satellites, or rovers. The possibilities are really endless!” In addition to this large financial award, Divya will join an elite network and benefit from student enrichment opportunities throughout her undergraduate studies.

Proud parents, Mr. and Mrs. Prasad, shared that, “Self-disciplined, dedicated learning and always helping others is the life motto of our daughter,” and Dr. Michael, TEMPO’s Headmaster, added that “Divya is a leader who exemplifies how vision and determination are indicative of, and foundational to, creative destiny. This is only the beginning of many exceeding pursuits of which Divya will invent, design, or be an integral catalyst. We, as part of the TEMPO School community, look forward to following her career.”

For more information, please contact Dr. Richard Slevinsky, Head of Upper School, at 780-394-2912 or by email at rslevinsky@temposchool.org.
