An experienced CABA member will conduct the hive inspection and answer questions.

During the spring, summer, and fall, weather permitting we will follow the above schedule. This presents an opportunity to open and inspect the hives. It is the best way to learn and the best time to ask questions. If you have questions about what is going on in your own hive take pictures and bring them for discussion.

Everyone attending will need to bring their own veil to enter the apiary as we encourage participation in checking the hives. Please, wear long pants and enclosed shoes to help accomplish safety.
