Terms of Use

Mosquitofish (*Gambusia affinis*) are effective mosquito control, but must be used in specific applications. Mosquitofish are a non-native species and **MUST NOT** be released into any waters that connect to or could lead into waters of the U.S. Mosquitofish may be used in **BACKYARD** ponds, fountains, water troughs, and other semi-permanent water sources that are isolated. Mosquitofish **CANNOT** be released into lakes, rivers, streams, ponds on public property (i.e. parks), and gutters. Doing so may be detrimental to native fish and wildlife.
