INDEPENDENT AUDITORS' REPORT

To the Board of Commissioners
Columbia County Development Agency
Columbia County, Oregon

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and major fund of Columbia County Development Agency, a component unit of Columbia County, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and major fund of Columbia County Development Agency, as of June 30, 2014, and the respective changes in financial position and budgetary comparison for the general fund thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The supplementary information, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information, as listed in the table of contents, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information, as listed in the table of contents, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The listing of board members containing their term expiration dates, located before the table of contents, have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Report on Other Legal and Regulatory Requirements

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated August 22, 2014, on our consideration of compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

Matthew Graves, CPA
PAULY, ROGERS AND CO., P.C.

Management’s Discussion and Analysis

This discussion is intended to be an easily readable analysis of the Columbia County Development Agency’s (Agency) financial activities based on currently known facts, decisions and conditions. It focuses on current year activities and should be read in conjunction with the financial statements that follow.

The report consists of agency-side statements, fund financial statements, notes to the statements and supplemental information.

AGENCY-WIDE STATEMENTS

Statement of Net Position

The Statement of Net Position provides a focus on the assets restricted for economic development activities, the Urban Renewal Agency’s governmental activity.

ASSETS	2014	2013
Cash and cash equivalents	\$ 1,125,614	\$ 328,969
Property Taxes Receivable	98,543	13,010
Total Assets	<u>1,224,157</u>	<u>341,979</u>
LIABILITIES:		
Accounts Payable	<u>4,200</u>	<u>2,820</u>
Total Liabilities	<u>4,200</u>	<u>2,820</u>
NET POSITION:		
Restricted for Urban Renewal	<u>1,219,957</u>	<u>339,159</u>
Total Net Position	<u>\$ 1,219,957</u>	<u>\$ 339,159</u>

Net position has increased considerably over the prior year. FY2012-13 was the final year of an enterprise zone exemption for the largest tax payer in the district. Debt service payments - as well as higher property tax revenues – resumed in the current year, resulting in a higher net position compared to last year.

Statement of Activities

The Statement of Activities focuses on the program costs and their matching resources. The urban renewal agency revenue is primarily earned thru property tax increments. Property tax levels can vary significantly year to year because currently two organizations drive this revenue and a change in the status of either's enterprise zone status and/or tax valuation translates directly to a change in the revenue picture.

The end of the enterprise zone this year resulted in strong, expected, property tax revenue growth over last year. And because no current year property tax was assessed last fiscal year, no share in royalties was disbursed to the Agency last year but in FY2013-14, the CCDA share of these County proceeds was over \$40,000. The balance of the revenue is derived from bank interest.

This Statement summarizes the extent to which the revenues exceeded or lagged behind the expenses.

GENERAL REVENUES:	2014	2013
Property taxes	\$ 2,360,964	\$ 1,281
Interest	6,656	2,010
Forest land sales and royalties	40,909	-
Total general revenues	<u>2,408,529</u>	<u>3,291</u>
EXPENSES:		
Governmental Activities:		
Economic Development	11,303	45,233
Debt Service	1,000,000	-
Special Payments	516,428	-
Total expenses	<u>1,527,731</u>	<u>45,233</u>
Change in net position	880,798	(41,942)
NET POSITION, BEGINNING	<u>339,159</u>	<u>381,101</u>
NET POSITION, ENDING	<u>\$ 1,219,957</u>	<u>\$ 339,159</u>

The tax increment is based on the value of the property in the designated urban renewal area which is mostly industrial property. Values for industrial properties, including utility properties, are set by the Department of Revenue and can fluctuate widely. Some years, as was the case last year, valuations may dip below the established frozen value and no current tax increment revenue is generated. Tax increment revenue is restricted to the repayment and administration of debt. Engineering and construction of improvements and equipment

benefiting the urban renewal area are examples of expenses financed with debt to be repaid by tax increments.

FUND FINANCIAL STATEMENTS

Fund Statements

Following agency-wide statements is a section containing fund financials statements. For the General Fund, a Budgetary Comparison Schedule is presented as supplementary information.

Budgetary Highlights

The budget was based on predicted revenues and the carrying costs of the entity.

Capital Assets and Debt Administration

Last fiscal year, Columbia County, on behalf of the Agency, finalized an amended amortization schedule associated with its debt agreement for the road project with the State of Oregon Economic and Community Development Department (OECDD).

The Port of Saint Helens also finalized its loan and the debt agreement for the water project with OECDD in the prior fiscal year. The loan came in at a lower level than the allowable amount set aside for the project, the water distribution and a discharge system for the Port Westward Industrial Park, at \$8,095,121.

Both of these loan repayments are guaranteed through tax increment revenue from the Urban Renewal Agency.

NOTES AND SUPPLEMENTAL INFORMATION

Economic Factors

The Agency, as the community is rebounding from the lows felt in the past years' economic difficulties, particularly with regards to employment, is a pivotal partner in promoting economic development in Columbia County, especially in the designated urban renewal area located by the City of Clatskanie.

Next Year's Budgets and Rates

The Agency's budget for fiscal year 2014-15 continues in the vein of the prior year with the largest tax payer in the area coming off its enterprise zone status, allowing for higher property tax and continuation of payment of debt service on both debt agreements financed by TIF revenues.

In addition, a technical change was passed in the Agency's FY2014 Supplemental Budget, which continues in the FY2015 Budget. The Agency is a component unit of Columbia County and makes payments to Columbia County to cover the administrative cost of running the Agency as well as reimbursement for debt service payments made on the County's Road loan supported by Agency TIF revenue. These payments to Columbia County are no longer classified as "Transfers" but now reflected as "Special Payment" category expenditures.

Financial Contact

The Agency's financial statements are designed to present users (citizens, tax payers, customers, investors and creditors) with a general overview of the Agency's finances and to demonstrate the Agency's accountability. If you have questions about the report or need additional financial information, you should contact the Agency's Finance Director at 230 Strand Street, St. Helens, Oregon 97051.

COLUMBIA COUNTY DEVELOPMENT AGENCY
(A COMPONENT UNIT OF COLUMBIA COUNTY)

COLUMBIA COUNTY, OREGON

NOTES TO THE BASIC FINANCIAL STATEMENTS

COLUMBIA COUNTY DEVELOPMENT AGENCY

COLUMBIA COUNTY, OREGON

NOTES TO COMPONENT UNIT BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The financial statements are prepared in accordance with Generally Accepted Accounting Principles (GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the accounting policies are described below.

A. THE FINANCIAL REPORTING ENTITY

Columbia County Development Agency (the Agency) (a component unit of Columbia County) was organized in June 2001, with an effective date of September 2001, under the provisions of the Oregon Revised Statutes, Chapter 457, to provide rehabilitation of blighted and deteriorated areas within the County's designated urban renewal area. The fiscal year ended June 30, 2003, was the first year property taxes were levied. As provided by ORS 457, the Board of County Commissioners of Columbia County is designated as the governing body of the Columbia County Urban Renewal Agency. Principal funding sources are property tax revenues and interest earnings. Fiscal and accounting functions are handled by personnel of Columbia County.

The Agency is a legally separate entity governed by the Board of County Commissioners. The Agency Board of Commissioners is not financially accountable for any other governmental entity. Financial accountability is determined in accordance with criteria set forth in accounting principles generally accepted in the United States of America, primarily on the basis of authority to appoint the voting majority of the governing board, ability to impose its will on that organization, the potential for that organization to provide specific benefits or impose specific financial burdens and that organization's fiscal dependency. The Agency is a component unit of Columbia County due to the fact that the Board of County Commissioners of Columbia County are the governing body and as such, are able to impose their will on the Agency. Therefore, the Agency is included in the financial statements of Columbia County for the year ended June 30, 2014.

B. BASIS OF PRESENTATION

GOVERNMENT-WIDE FINANCIAL STATEMENTS (GWFS)

Government-wide financial statements consist of the statement of net position and the statement of activities display information as a whole. Funds are used to report financial position and the results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions and activities. The statement of activities presents a comparison between direct expenses and program revenues for each function of the governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Taxes, interest and other items not properly included among program revenues are reported instead as general revenues.

FUND FINANCIAL STATEMENTS

These statements display information at the individual fund level. Each fund is considered to be a separate accounting entity. There is only one fund which is a governmental fund.

COLUMBIA COUNTY DEVELOPMENT AGENCY

COLUMBIA COUNTY, OREGON

NOTES TO COMPONENT UNIT BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. BASIS OF PRESENTATION (CONTINUED)

The financial transactions are recorded in the General fund. The fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures or expenses.

General Fund - The General Fund is used to record expenditures related to capital improvements projects. Major sources of revenue and other financing sources are specific taxes that are legally restricted to expenditures for specific purposes.

Net Position - Net position is comprised of the various net earnings from operations, nonoperating revenues, expenses and contributions of capital. Net position is classified in the following three categories:

Net Investment in Capital Assets – consists of all capital assets, net of accumulated depreciation. There was no net position invested in capital assets at June 30, 2014.

Restricted – consists of external constraints placed on net asset use by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unassigned net position – all residual resources are classified as unassigned.

C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe which transactions are recorded within the various financial statements. Basis of accounting refers to when transactions are recorded regardless of the measurement focus.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *full accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Revenues are considered to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements, reconciliation is necessary to explain the adjustments needed to transform the fund based financial statements into the government-wide presentation.

COLUMBIA COUNTY DEVELOPMENT AGENCY

COLUMBIA COUNTY, OREGON

NOTES TO COMPONENT UNIT BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. BUDGETS

On or before June 30 of each year a resolution is adopted approving the budget, appropriating the expenditures, and levying the property taxes. Prior to enacting this resolution, the proposed budget is presented to a budget committee consisting of members of the Board and a like number of interested citizens. The budget committee presents the budget to the Board for budget hearings prior to enactment of the resolution. All funds are budgeted as required by Oregon Local Budget Law.

While financial position, results of operations, and changes in fund balance/net position is reported on the basis of accounting principles generally accepted in the United States of America (GAAP), the budgetary basis of accounting differs from generally accepted accounting principles. The budgetary basis of accounting is substantially the same as generally accepted accounting principles in the United States of America with the exception that property taxes are recorded as revenue when received.

The resolution authorizing appropriations for the General Fund sets the legal level of control by which expenditures cannot legally exceed appropriations. Expenditure categories of personal services, materials and services, capital outlay, debt service transfers, and contingency are the legal level of control for the General Fund. The detail budget document, however, is required to contain more specific information for the above mentioned expenditure categories. Unexpected additional resources may be added to the budget through the use of a supplemental budget. A supplemental budget requires hearings before the public, publications in newspapers, and adoption by the Board. Management may modify original and supplemental budgets by the use of appropriation transfers between the legal levels of control within a fund. Such transfers require approval by the Board. Management may not amend the budget without seeking the approval of the Board. Appropriations lapse as of year-end. At year-end, all expenditures were within authorized appropriations.

E. PROPERTY TAXES RECEIVABLE AND PROPERTY TAX CALENDAR

Property taxes receivable is recorded to indicate the amount of uncollected taxes receivable in the future. Such taxes are offset by a liability to indicate that these amounts have to be recorded as receipts. Ad valorem property taxes are levied and become a lien on all taxable property as of July 1. Collection dates are November 15, February 15, and May 15. Discounts are allowed if the amount due is received by November 15. Taxes unpaid and outstanding on May 16 are considered delinquent. Taxes are billed and collected by Columbia County and remittances are made at periodic intervals.

F. ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that effect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

COLUMBIA COUNTY DEVELOPMENT AGENCY

COLUMBIA COUNTY, OREGON

NOTES TO COMPONENT UNIT BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. RECEIVABLES AND PAYABLES

Uncollected property taxes are shown in the government wide statement of net position. Uncollected taxes are deemed by management to be substantially collectible or recoverable through liens; therefore, no allowance for uncollectible taxes has been established. Property taxes collected within approximately thirty days of fiscal year-end are recognized as revenue.

The remaining balance of taxes receivable is recorded as deferred revenue because it is not deemed available to finance operations of the current period.

H. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net positions that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The government does not have an item that qualifies for reporting in this category.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly, the item *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source: property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

I. FUND BALANCE

In March 2009, the GASB issued Statement No. 54, Fund Balance Reporting and Governmental Fund-type Definitions. The objective of this statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund-type definitions. This statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed on the use of the resources reported in governmental funds. Under this standard, the fund balance classifications of reserved, designated, and unreserved/undesignated were replaced with five new classifications – nonspendable, restricted, committed, assigned, and unassigned.

COLUMBIA COUNTY DEVELOPMENT AGENCY

COLUMBIA COUNTY, OREGON

NOTES TO COMPONENT UNIT BASIC FINANCIAL STATEMENTS

I. FUND BALANCE (CONTINUED)

- Nonspendable fund balance represents amounts that are not in a spendable form.
- Restricted fund balance represents amounts that are legally restricted by outside parties for a specific purpose (such as debt covenants, grant requirements, donor requirements, or other governments) or are restricted by law (constitutionally or by enabling legislation).
- Committed fund balance represents funds formally set aside by the governing body for a particular purpose. The use of committed funds would be approved by resolution.
- Assigned fund balance represents amounts that are constrained by the expressed intent to use resources for specific purposes that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body or by an official to whom that authority has been given by the governing body.
- Unassigned fund balance is the residual classification of the General Fund.

There were no nonspendable, committed, or assigned fund balances at year end.

The governing body has approved the following order of spending regarding fund balance categories: Restricted resources are spent first when both restricted and unrestricted (committed, assigned or unassigned) resources are available for expenditures. When unrestricted resources are spent, the order of spending is committed (if applicable), assigned (if applicable) and unassigned.

2. CASH AND INVESTMENTS

State statutes govern cash management policies. Statutes authorize investing in bankers' acceptances, time certificates of deposit, repurchase agreements, obligations of the United States and its agencies and instrumentalities, and the Oregon State Treasurer's Local Government Investment Pool.

DEPOSITS

Deposits with financial institutions include bank demand deposits. Oregon Revised Statutes require deposits to be adequately covered by federal depository insurance or deposited at an approved depository as identified by the Treasury.

There were deposits at June 30, 2014, which were included in the cash that is pooled with Columbia County. Please refer to Columbia County's basic financial statements, issued under separate cover, for additional information pertaining to the nature and collateralization of the County's cash and investments.

INVESTMENTS

State statutes authorize investment primarily in general obligations of the U.S. Government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, bankers' acceptances, certain commercial papers and the State Treasurer's Investment Pool, among others. The fair value in the State Treasurer's Local Governmental Investment Pool approximates the cash value of the pooled shares at June 30, 2014. Cash and investments are pooled with Columbia County. Please refer to Columbia County's basic financial statements, issued under separate cover, for additional information pertaining to the nature and categorization of investments.

COLUMBIA COUNTY DEVELOPMENT AGENCY

COLUMBIA COUNTY, OREGON

NOTES TO COMPONENT UNIT BASIC FINANCIAL STATEMENTS

2. CASH AND INVESTMENTS (CONTINUED)

As of June 30, 2014, the following investments and maturities are reported:

Investment Type	Fair Value	Investment Maturities (in months)		
		Less than 3	3-17	18-59
State Treasurer's Investment Pool	\$ 1,125,614	\$ 1,125,614	\$ -	\$ -
Total	\$ 1,125,614	\$ 1,125,614	\$ -	\$ -

The State Treasurer's Local Government Investment Pool (LGIP), is a cash and investment pool available for use by all state funds and local governments and is maintained by the State Treasurer. The LGIP is an open-ended, no-load diversified portfolio offered to eligible participants, including any municipality, political subdivision, or public corporation of the state. Local government pooled assets are reported as an Investment Trust Fund in Oregon's Comprehensive Annual Financial Report. The Oregon Short-Term Fund Board, established by the Oregon Legislature, advises the Oregon Investment Council and the Oregon State Treasury in the management and investments of the LGIP. In addition, the Columbia County Treasury Pool is utilized under the warrant system as well as maintaining deposits from property tax collection proceeds.

Credit Risk – Deposits

In the case of deposits, this is the risk that in the event of a bank failure, the deposits may not be returned. There is no deposit policy for custodial credit risk. As of June 30, 2014, none of the bank balance was exposed to custodial credit risk because it was either insured or collateralized.

Interest Rate Risk

This is the risk of exposure of the investments to fair value losses arising from increasing interest rates. There is no formal investment policy that limits investment maturities. State policies are followed.

Concentration Risk

Concentration risk is the risk of loss due to a large portion of investments with a single issuer. At June 30, 2014, 100% of total investments were in the State Treasurer's Investment Pool. State statutes do not limit the percentage of investments in this instrument.

3. UNAVAILABLE REVENUE

Unavailable revenue as of June 30, 2014 consists of uncollected property taxes not deemed available to finance operations of the current period.

4. RISK MANAGEMENT

There is exposure to various risks of loss related to: torts, errors and omissions; and natural disasters. Commercial insurance is purchased to minimize exposure to these risks. There has been no reduction in commercial insurance coverage from fiscal year 2013 to 2014. Settled claims for the fiscal year 2014 have not exceeded this commercial coverage.

NOTES TO COMPONENT UNIT BASIC FINANCIAL STATEMENTS

5. COMMITMENTS

Tax increment revenues are pledged to repay a loan made to Columbia County for infrastructure improvements at Port Westward. The Oregon Economic & Community Development Department (OECDD) has supported the development of the Agency by committing loans in the amount of \$5,746,893 for access and road corridor improvements. The loan's annual amortization schedule is stated in the loan closing documents signed in FY2013. The loan with an interest rate of 4.99% will be repaid with tax increment revenues. Columbia County is fully responsible for the debt, and no obligation has been recorded in the Agency's financial statements.

Tax increment revenues are pledged to repay a loan from OECDD incurred by the Port of St. Helens to build a water intake and discharge system in the plan area. The loan is a construction loan with a 25 year term at 5% interest. The final loan document was signed in FY2013 for a total of \$8,095,121. The Port of St. Helens is the counter party to the loan contract with the State of Oregon's Infrastructure Finance Authority and no obligation has been recorded in the Agency's financial statements.

August 22, 2014

Independent Auditors' Report Required by Oregon State Regulations

We have audited the basic financial statements of Columbia County Development Agency as of and for the year ended June 30, 2014, and have issued our report thereon dated August 22, 2014. We conducted our audit in accordance with auditing standards generally accepted in the United States of America.

Compliance

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures, but were not limited to the following:

- **Deposit of public funds with financial institutions (ORS Chapter 295)**
- **Indebtedness limitations, restrictions and repayment.**
- **Budgets legally required (ORS Chapter 294).**
- **Insurance and fidelity bonds in force or required by law.**
- **Authorized investment of surplus funds (ORS Chapter 294).**
- **Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).**

In connection with our testing nothing came to our attention that caused us to believe the Columbia County Development Agency was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations.

OAR 162-10-0230 Internal Control

In planning and performing our audit, we considered internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of internal control over financial reporting.

This report is intended solely for the information and use of the Board of Directors, management and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.
