

TMI AutoTech, Inc. is an established, exclusive manufacturer, and distributor of engineered products and services. TMI is the exclusive North American manufacturer of the Ariel Atom, as well as the Ariel Nomad for North, Central, and South America. We have a current opening in the following position:

Mechanical Engineer

Primary Responsibilities:

- Responsible for the detailed design, establishing 3D models, working drawings, and specifications for specialty vehicle components.
- Research and develop new related technologies as needed
- Detailed development of a product or system to meet functional and cost requirements
- Coordinate with the Purchasing Department and suppliers to help specify the appropriate and cost effective components needed for designs

Education Requirements:

- Minimum B.S. in Engineering or equivalent from an accredited school

Experience Required:

- 1-2 years' experience in mechanical engineering preferred

Skills Required:

- Qualified candidates should be able to work actively on engineering projects without detailed supervision, have good written and oral communication skills, the ability to consistently meet deadlines and handle unpredicted problems in a timely manner, and a strong knowledge of SolidWorks or similar modeling software.

Competencies:

- Ambitious, enthusiastic, and energetic
- Ability to maintain high attention to detail
- Desire to be a part of a quality driven team
- Ability to work with minimal supervision
- A dedication to quality and accuracy
- Excellent organizational and record keeping skills
- Ability to contribute towards continuous improvement
- Self-Starter with a strong work ethic

Benefits:

- Job advancement opportunities
- Stimulating and challenging team-based work environment
- Competitive wage and benefits package
- Modern, clean facilities and working conditions
