**Web sites (with other team members)**
iSeahorse www.iseahorse.org. Launched 9 October 2013. This citizen science initiative provides the opportunity for everybody everywhere to contribute seahorse sightings to conservation. It will soon be enhanced by opportunities for trends monitoring and policy engagement.
Project Seahorse. www.projectseahorse.org web site is a tool for educating schoolchildren, students, researchers and the general public. It was developed in response to a great number of requests for information on syngnathid life history, behaviour, habitats, ecology, taxonomy, global distribution, trade, legislation, and conservation action. Entirely revised online October 2015.
