Geoff Green

Business Exit Strategist

It's easy starting a business; it's much harder getting out again. Most business owners find this out too late.

Geoff Green, is one of Australia's leading business exit strategists and author of "The Smart Business Exit: Getting Rewarded for your Blood, Sweat, and Tears" and will share his key insights on business exit strategies. Attendees will also receive a copy of Geoff's book.

Over a 30 year career in corporate law, business consulting and his own business ventures, Geoff has helped hundreds of business owners not only build great businesses, but also get rewarded for their blood, sweat and tears when they exit.

Geoff has also been involved in his own business exits. In particular, he was a co-founder and the initial managing director of Bendigo Stock Exchange, which was established as a start-up company and sold five years later to the National Stock Exchange.

Geoff is also a member of the international advisory board of 'The Value Builder System', a North American organisation developing one of the world's largest and fastest growing networks of business exit advisers.

In addition, Geoff is also a regular contributor to mainstream and online media, a popular guest on business webinars and podcasts and a highly engaging speaker on high growth business strategies and profitable business exits, having also featured on 3AW, BRW and The Sydney Morning Herald.
