

Dear Community,

I am very happy to announce that our Save Our Street Outreach campaign was a huge success! I want to take a moment to thank you for your support and let you know you are making a wonderful difference to the hundreds of youth we serve. With your support our Street Outreach program will continue to serve at-risk and homeless youth in our communities and provide 24/7 support services to youth all over Snohomish County!

Cocoon House will be able to continue to provide a safe, nurturing drop-in center where youth can get a warm meal to eat, clothes, hygiene supplies, drug and alcohol support, help with employment, education, and finding the resources they need to break the cycle of youth homelessness.

Our Street Outreach team will continue their work reaching thousands of youth all over Snohomish County and get them connected to services like our Advocate program where they can get one-on-one support.

Funding for the operation of these critical programs is an ongoing effort and Cocoon House is committed to pursuing and applying for available grants to keep these services available in our communities. The impact your support will have on the youth we serve will resonate throughout our community and have a major role in the successful transition to adulthood for the youth in our programs.

On behalf of Cocoon House, the youth we serve and their families, thank you.
