Details:

Please park on the street if you are able and access the garage by walking up the driveway.

We have three small kids who are often playing outside near the garage and driveway so please be careful.

Shares will be setup on the side of the garage closest to the house. Please enter through the door facing the house. The door will be unlocked.

There will be a small table setup near the shares with a list of CSA members using our site.

Please find your name on the list and cross it off when you take your share.

The plastic bins the shares are in will stay at the pickup site. Please neatly stack the empty bins and lids near the table.

Please bring grocery bags or any other means of transporting your share to your home. We will set out a few spare paper bags if needed. Any donations of paper bags are welcome.

We look forward to another great season of Vermont Valley produce and are excited to be a new pick up site!
