New York August 19th 1866.

Sir,

I read with a great deal of interest an article which you contributed to the August number of DeBom's[?] Review.

From the editorial accompanying it, I learn with pleasure that you will furnish a pamphlet on the subject to any who may desire to study the squiter[?].

I am satisfied some other plan than the old ~~rotine~~ routine must be adopted to bring into play speedily the immense resources of the South & SouthWest, and he will earn the title of a public benefactor who will point out the way by which such a result can be obtained.

I will therefore be much obliged if you would favor me with a copy of your pamphlet. I enclose stamps for the prepayment of postage.

I have the honor to be

Yours very truly
