

Proposition 65, also called the Safe Drinking Water and Toxic Enforcement Act, was enacted by the State of California in 1986. The act requires “ clear and reasonable ” warnings about potential exposures to certain chemicals that California has determined cause cancer, birth defects or other reproductive harm. Proposition 65 has recently been amended to also include “pre-purchase” warning requirements. In addition to on-product warnings, catalogs and webpages must now carry the same warnings so that consumers in California can see the warnings prior to purchase. Please review this list prior to purchasing the below products.
