

IncQuery Labs presents:

InstaSchema

for MagicDraw™

InstaSchema can automatically and instantaneously validate and repair stereotyped UML/SysML models, with features specifically tailored to the needs of large-scale modelling.

Element	Severity	Abbreviation	Message	Is Ignored
AllocateRealtime::server::TestModel::Ventilation_System::VentilationMaster - sensors::TestMod...	error	INSTA_TAG_MISSING	This stereotyped class does not define a tag value for the following stereotype property: weight	Not Ignored
	error	INSTA_TAG_MISSING	This stereotyped class does not define a tag value for the following stereotype property: ID	Not Ignored
	error	INSTA_TAG_MISSING	This stereotyped class does not define a tag value for the following stereotype property: schedulerPriority	Not Ignored
	error	INSTA_ASSOC_LINDIR_TMULTI	Target Role sensors of undirected association does not conform to the multiplicity specified in the underlying schema. The	Not Ignored

Fully integrated with
MagicDraw™

Comprehensive

Easy to use

Scalable
