...but God is good! April 2020 was scheduled to be one of the busiest months in Christ Church history, but a global pandemic had other plans! While we’ve dearly missed seeing you during this time, the church has pressed forward, and I have no doubt we’re going to hear many wonderful stories of God’s goodness on the other side. Thank you for your faithfulness in the time of uncertainty.

-Shane Stanford

Christ Community Health Services serves the underserved, and that hasn’t changed through the COVID-19 crisis as they help those who don’t have the access to healthcare that many of us enjoy. For two weeks Christ Church groups ordered meals from local restaurants to feed CCHS clinics. More than 40 meals were delivered, 21 unique groups donated and 7 clinics were fed! THANK YOU!

In this global pandemic our medical communities have found themselves on the frontline. Sleepless nights, separated from families and even risking their own life to ensure our communities remain safe. Their sacrifices have been large and too numerous to count. We’re recognizing a hero of the COVID-19 pandemic every day on our social media channels. If you know a hero on the frontlines, let us know: info@christchurchmemphis.org

While Christ Church isn’t physically meeting right now, that hasn’t stopped our ministry! We’re releasing new content online every day of the week. From streaming Sunday services at 9:45 AM, to new podcast episodes every day and even weekly blog posts from Dr. Maxie Dunnam and other Christ Church staff. Stay Connected through our social media and our weekly e-newsletter.
